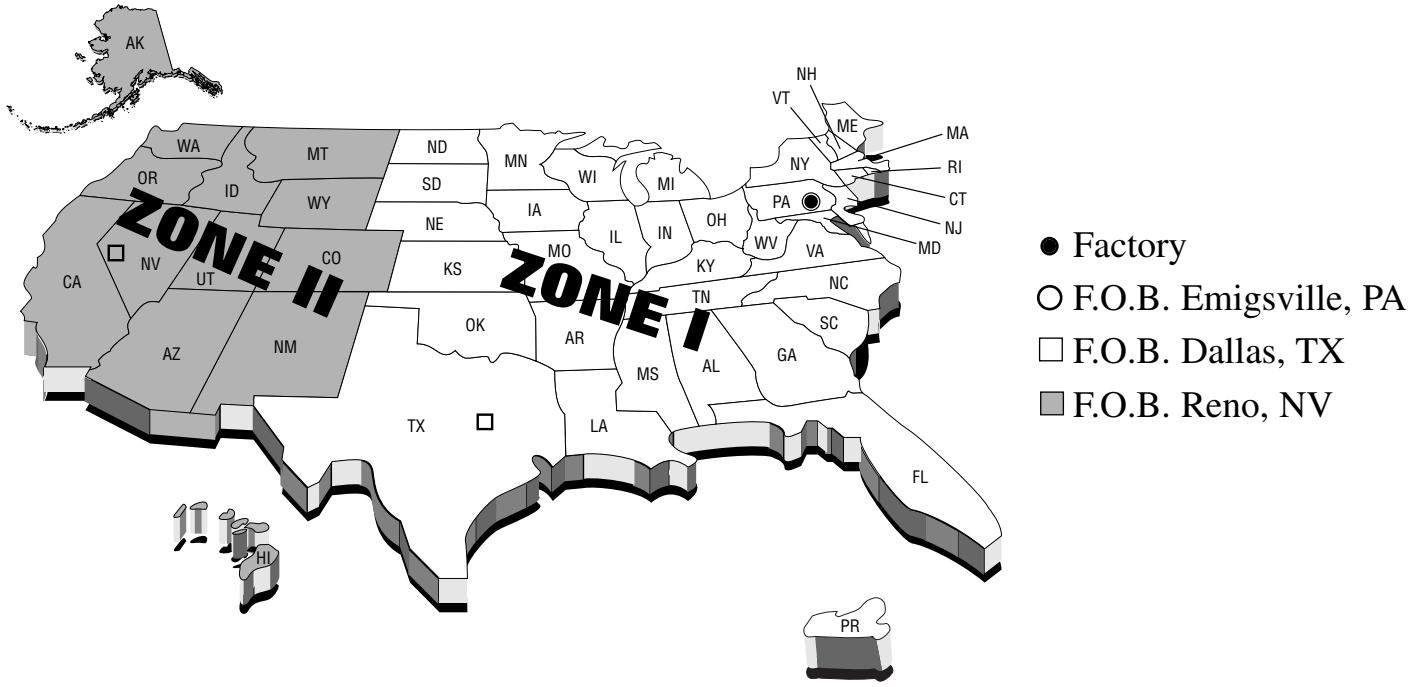
Commercial Terms & Conditions



Payment Terms: Deposits are required for all 1st time orders and until credit has been established. Datum's standard terms are net 30, and Datum does offer prompt pay discounts.

Pricing: All prices shown are knocked down, Zone I F.O.B. Emigsville, PA, Dallas, TX; Zone II F.O.B. Reno, NV and are subject to change without notice. See separate contract for GSA pricing, terms and conditions.

Minimum Order: $100 (net). Any order less than $100 net will be subject to a $25.00 net service charge.

Shipping: All orders are shipped best way, prepaid and add, unless otherwise noted. Inside Delivery, Messenger, Padded Van, and UPS Services are available for an additional charge. Please consult factory for additional pricing information.

Ordering Instructions: All orders must be in writing and accompanied by a purchase order number. Quantities, part numbers, paint, and laminate colors must be clearly noted on order. All orders will be confirmed with a written acknowledgment.

Design Service: Datum offers a complete layout planning service using our AutoCAD® system as well as prepared detailed quotations. These services are provided free of charge.

Standard Paint Colors: Products are available in 12 standard paint colors, unless otherwise noted (refer to Datum's color chart). Other colors may be subjected to an extended lead-time, please consult factory for more information. Datum's state-of-the-art electrostatic powder coat has the capability to paint virtually any color. Please contact the factory for more information. Custom match paint color upcharge:

List Price	Upcharge	List Price	Upcharge
$1.00 - $2,500	$300.00 net	$5,001 - $10,000	20% of net
$2,501 - $5,000	25% of net	$10,001 - OVER	15% of net

Design Ownership: All designs, plans, layouts, drawings, and specifications are the property of Datum and may not be used, reproduced or distributed, in whole or part, without prior written consent.

Freight Claims: Datum takes the utmost care when packing our product to prevent shipping damage. It is your responsibility to note on the freight carrier's bill of lading any damage incurred while in transit. All damage claims must be submitted by you with the carrier.

Returns: Return authorization must be requested within 30 days of invoicing and no product may be returned without a prior written return authorization. All returns must be made within 30 days of receiving the written return authorization and are subject to a 25% restocking charge ($20.00 minimum) plus all incurred freight charges.

Storage: Datum does not have the facilities to store completed orders, therefore all orders must ship when completed. If a postponement of product shipment is requested by the Dealer after the ordered goods are released to manufacturing or at a time when Datum is ready to ship the ordered goods, Datum may transfer the ordered goods to storage at the Dealer's risk and expense. This transfer to storage will be considered delivery to the Dealer for all purposes including invoicing and payment.

Replacements: Replacement requests for damaged or missing parts must be submitted to Datum within 30 days of receipt of product. Replacement requests made after 30 days of receipt of order will be sent out at dealer cost plus freight.

LIFETIME WARRANTY:* Datum Filing Systems warrants to the original purchaser for the life of the product so long as original purchaser is the owner and possessor of the product that the product will be free of any defect in materials or workmanship and will provide, for a period of two years from date of shipment, free of charge, all parts and labor at the location of the product to repair or replace any part of the product that fails because of such defect. After two years from date of shipment, labor will not be provided. This warranty does not include defects to the product resulting from accident, misuse, improper installation or operation, normal wear, neglect, unauthorized repair or alteration. The purchase of this product shall constitute purchaser's agreement that the sole remedy for any breach of warranty shall be such repair or replacement as expressly provided above. Datum Filing Systems in no event shall be liable for any incidental or consequential damages arising out of the use or inability to use the product for any purpose whatsoever.

GENERAL INFORMATION

Product Description: Stak-N-Lok™ is a space saving solution from Datum which offers locking doors for added security and privacy (HIPAA). The Stak-N-Lok™ tier construction allows for modularity; use a one high unit for desktop storage or go as high as seven tiers for maximum storage.

Inside Dimensions:

Letter: 10-3/8" High, 13-5/8" Deep
Legal: 10-3/8" High, 16-5/8" Deep
Binder: 12-3/8" High, 16-5/8" Deep

SPECIFICATIONS

Material and Workmanship: All Datum Stak-N-Lok™ units are manufactured from high quality, cold rolled steel, free of scale or rust. Exposed edges, corners and surface areas are free of any sharp edges.

Assembly: All components come fully assembled. Individual tiers are packaged one per box.

Tier Sides: The sides and back of each tier section are manufactured from a single piece of 20 gauge cold rolled steel, formed to make three sides incorporating a continuous 3/4" flange on the top and bottom.

Shelf: The tier shelf is manufactured from 20 gauge cold rolled steel. The front edge of the shelf has a 1/2" lip with a 1/2" return bend for maximum strength. The shelf is further reinforced with a 20 gauge welded steel channel along its entire length. The tier shelves are punched to include two tabs on the base, and one tab located in the rear. Each shelf includes a 18 gauge slotted formed channel welded to the inside of the tier. The rear tab of the adjustable dividers lock into this channel Channels include slots punched on 2" centers that correspond to slots on shelves.

Divider: Each opening or tier section includes two adjustable file dividers, manufactured from 20 gauge cold rolled steel and powder coat finished to match cabinet color. Dividers can be positioned on 2" centers along the entire shelf length.

Door: The fully recessed door of each section is manufactured from 20 gauge cold rolled steel with a 5/8" edge and a 1/2" return bend. The door is also reinforced with a 20 gauge welded steel channel. Each door pivots on two 3/16" hardened steel pins and glides on two non-marring nylon pads. Each door also has two rubber pads to quiet its operation when being closed.

Top: The top of each Stak-N-Lok™ unit is manufactured of 20 gauge cold rolled steel and is welded to the upper opening.

Base: The base of each unit is manufactured from a single piece of 16 gauge cold rolled steel and includes four 5/16" x 18 threaded leveling domes.

Lock: Locking Stak-N-Lok™ units are gang locked using dual 14 gauge lock bars which are mounted in the 3/4" side channels. The lock is typically located in the top section and can be re-keyed in the field.

Finish: All steel parts are thoroughly cleaned using a three-stage iron phosphate washer and then coated with an Epoxy-Hybrid powder coat finish using a state-of-the-art electrostatic paint system. Powder coating provides a superior, attractive, uniform finish that is more durable, scratch and corrosion resistant, and environmentally friendly than liquid paint.

FOR ADDITIONAL INFORMATION ON ORDERING, TERMS AND CONDITIONS, PRICING AND SHIPPING, REFER TO PAGE i.

POWDER COATED TOUGH™

24" Stak-N-Lok™ Cabinets - 100 Series

All 100 Series cabinets are pre-assembled at the factory and are available with or without a lock. Units for letter and legal media are available from 2 to 7 openings high and units for binder media are available from 2 to 6 openings high. 100 Series cabinet locks are positioned at the top and keyed alike. "-NL" at the end of the Item # below denotes non-locking doors. One receding door per opening is standard and doors are gang locked (one key locks all doors simultaneously). All units include two adjustable file dividers per opening, additional dividers (Item # SNPD8) may be ordered. Four adjustable leveling glides are included. Inside clear height on letter and legal depths is 10-3/8"; binder size, 12-3/8". Additional tiers may be added onto Stak-N-Lok™ cabinets when required. Please contact Customer Service or your Datum representative for additional information.

STAK-N-LOK LETTER CABINETS REQUIRE LEGAL SIZE TRAKSLIDER COMPONENTS. STAK-N-LOK LEGAL AND BINDER CABINETS REQUIRE X-RAY SIZE TRAKSLIDER COMPONENTS. REFER TO PAGE 100 FOR TRAKSLIDER INFORMATION.

30" Stak-N-Lok™ Cabinets - 100 Series

All 100 Series cabinets are pre-assembled at the factory and are available with or without a lock. Units for letter and legal media are available from 2 to 7 openings high and units for binder media are available from 2 to 6 openings high. 100 Series cabinet locks are positioned at the top and keyed alike. "-NL" at the end of the Item # below denotes non-locking doors. One receding door per opening is standard and doors are gang locked (one key locks all doors simultaneously). All units include two adjustable file dividers per opening, additional dividers (Item # SNPD8) may be ordered. Four adjustable leveling glides are included. Inside clear height on letter and legal depths is 10-3/8"; binder size, 12-3/8". Additional tiers may be added onto Stak-N-Lok™ cabinets when required. Please contact Customer Service or your Datum representative for additional information.

STAK-N-LOK LETTER CABINETS REQUIRE LEGAL SIZE TRAKSLIDER COMPONENTS. STAK-N-LOK LEGAL AND BINDER CABINETS REQUIRE X-RAY SIZE TRAKSLIDER COMPONENTS. REFER TO PAGE 100 FOR TRAKSLIDER INFORMATION.

100 Series 24" & 30" Components

Component Parts for Field Retrofit

Starter Sections

All starter sections come complete with one retractable door, leveling base and top, one movable plate divider, and all necessary attachment hardware. All 100 Series Starter sections include lock positioned on top cover. **Note 1:** Binder and Legal units can be combined. **Note 2:** (-SL) denotes compatible with 100 Series/Locking and (-SLNL) denotes compatible with 100 Series/Non-Locking.

Adder Sections

All Adder shelf sections come complete with one retractable door, one movable plate divider, and all necessary attachment hardware. **Note 1:** Binder and Legal can be combined. **Note 2:** (-AL) denotes compatible with all Locking Series and (-ALNL) denotes compatible with all Non-Locking Series.

200 Series 24"& 30" Stak-N-Lok™ Cabinets

All 200 Series cabinets are pre-assembled at the factory and are available with or without a lock. Units for letter and legal media are available from 5 to 7 openings high and units for binder media are available from 5 to 6 openings high. 200 Series cabinets feature a Posting Shelf above the third tier. Locks are positioned above the third tier and keyed alike. "-NL" at the end of the Item # below denotes non-locking doors. One receding door per opening is standard and doors are gang locked (one key locks all doors simultaneously). All units include two adjustable file dividers per opening, additional dividers (Item # SNPD8) may be ordered. Four adjustable leveling glides are included. Inside clear height on letter and legal depths is 10-3/8"; binder size, 12-3/8". Additional tiers may be added onto Stak-N-Lok™ cabinets when required. Please contact Customer Service or your Datum representative for additional information.

STAK-N-LOK LETTER CABINETS REQUIRE LEGAL SIZE TRAKSLIDER COMPONENTS. STAK-N-LOK LEGAL AND BINDER CABINETS REQUIRE X-RAY SIZE TRAKSLIDER COMPONENTS. REFER TO PAGE 100 FOR TRAKSLIDER INFORMATION.

All Locking Series cabinets are keyed-alike. Please contact factory for more information on other lock series options.
Other sizes are available, please consult factory for more information.

300 Series 24" & 30" Stak-N-Lok™

All 300 Series cabinets are pre-assembled at the factory and are available with or without a lock. Units for letter and legal media are available from 5 to 7 openings high and units for binder media are available from 5 to 6 openings high. 300 Series cabinets feature a Spacer above the third tier. The Spacer provides uniform cabinet height for 300 series when positioned adjacent to a 200 Series cabinet. Locks are positioned above the third tier and keyed alike. "-NL" at the end of the Item # below denotes non-locking doors. One receding door per opening is standard and doors are gang locked (one key locks all doors simultaneously). All units include two adjustable file dividers per opening, additional dividers (Item # SNPD8) may be ordered. Four adjustable leveling glides are included. Inside clear height on letter and legal depths is 10-3/8"; binder size, 12-3/8". Additional tiers may be added onto Stak-N-Lok™ cabinets when required. Please contact Customer Service or your Datum representative for additional information.

STAK-N-LOK LETTER CABINETS REQUIRE LEGAL SIZE TRAKSLIDER COMPONENTS. STAK-N-LOK LEGAL AND BINDER CABINETS REQUIRE X-RAY SIZE TRAKSLIDER COMPONENTS. REFER TO PAGE 100 FOR TRAKSLIDER INFORMATION.

NOT FOR USA

ThinStak® General Information & Specifications

GENERAL INFORMATION

Product Description: The Datum ThinStak® Shelving System is designed to maximize storage capacity while utilizing a minimum of floor space. Each section consists of individual shelf tiers that stack on top of each other to form a complete shelving unit, up to 8 levels high.

Typical Application: Only Datum offers the most complete line of stackable tiers in the market today. Typical Datum tier applications include:

Letter: Primarily used for Side Tab Color Coded file folders.
Legal: Available in 1" greater opening which are ideal for expandable pocket folders.
Medical: Including X-Ray and mammography jacket storage and mini folder for dental and optical records.
Sports: VHS Tape storage for High School, College, and Professional game films.
Reference Material: Tiers are available in three depths for Binder and Book Storage.

SPECIFICATIONS

Material and Workmanship: All Datum ThinStak® tiers are manufactured from high quality, cold rolled steel, free of scale or rust. Exposed edges, corners and surface areas are free of any sharp edges. Tier components are joined together using state-of-the-art welding and manufacturing technologies.

Assembly: Each shelving section requires one base and one top set. Each tier is independent of each other and may be joined together. Shelving tiers are joined together using nut and bolt assembly (recommended for mobile storage use) or drive rivets (stand alone units). Each tier will have corresponding holes for easy assembly.

Tier Side: Tier sides are constructed of a one-piece section of 20 gauge steel, formed to make three sides incorporating a continuous 3/4" flange on top and bottom.

Shelf:

Fixed Divider Systems: The shelf is manufactured from a single piece of 20 gauge steel formed with a 1/8" hem closed in front. The shelf is punched to receive the bottom of each welded divider. The shelf is then welded directly to the side along the 3/4" flange.

Movable Divider Systems: The shelf is manufactured from a single piece of 20 gauge steel formed with a 1/8" hem closed in front and a channel that accepts the movable divider. The channel is formed along the entire width of the shelf. The shelf is welded to the tier side along the 3/4" flange. The shelf is reinforced with one 20 gauge steel-formed support channel. This support channel is welded to the shelf bottom, supporting the shelf along its entire width.

Divider:

Fixed Divider Systems: The divider is manufactured from 20 gauge steel. Each divider is formed with two 5/8" flanges on each end. One flange is welded directly to the shelf back and the other interlocks and is welded to the shelf bottom, forming a smooth, non-obstructing support.

Movable Divider Systems: The movable plate divider is manufactured from 16 gauge steel. The divider attaches itself into the shelf channel. The shelf channel allows the divider to be positioned at any location along the tier width. One black painted divider is supplied per tier.

Top: The top is manufactured from a single sheet of 20 gauge steel with a 1" formed channel on all four sides. When installed, the rear of the top will interlock with the top of the upper-most tier and then bolt in place along the sides.

Base: The base is manufactured from a single sheet of 16 gauge steel with a minimum of a one inch formed channel on all four sides. The base is available in three height configurations. A two-inch high base is standard (Datum TrakSlider™ Systems require a 2" base). One and four inch bases are also available. Leveling guides are included with the two and four inch bases only.

Size and Colors: Datum ThinStak® tiers are available in a wide variety of sizes and colors to fit virtually any application and room decor. ThinStak® tier sizes include: 24", 30", 36", 42", and 48" widths in either fixed welded divider or movable plate divider. ThinStak® tiers are available in 12 standard paint colors (refer to Datum's color chart). Other colors are available. See terms and conditions for more color information.

Finish: All steel parts are thoroughly cleaned using a three-stage iron phosphate washer and then coated with an Epoxy-Hybrid powder coat finish using a state-of-the-art electrostatic paint system. Powder coating provides a superior, attractive, uniform finish that is more durable, scratch and corrosion resistant, and environmentally friendly than liquid paint.

Compatibility: All Datum ThinStak® tiers are compatible to SUPREME THINLINE tiers in color and size.

Estimated Media Weights:

Letter: 2–$2^{1/2}$ pounds per filing inch
Legal: $2^{1/2}$–3 pounds per filing inch
X-Ray: 8 pounds per filing inch
Book & Binder: 3–$3^{1/2}$ pounds per filing inch

FOR ADDITIONAL INFORMATION ON ORDERING, TERMS AND CONDITIONS, PRICING AND SHIPPING, REFER TO PAGE i.

Fully Assembled Shelving Units

All shelving units ship completely assembled. All Fixed Divider Letter and Legal depth sections include 7 or 8 levels high, 10" fixed welded divider tiers, with 2" leveling base and top set. All Movable Plate Divider Letter and Legal depth sections include 7 or 8 levels, 11" high movable divider tiers, with 2" leveling base and top set. All X-Ray depth sections include 5 or 6 levels high, 15" fixed welded divider tiers w/1" non-leveling base and top set. All Prices shown are F.O.B. Emigsville, PA Distribution Center only.

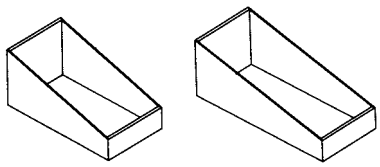
*For use with letter depth tiers only
† Labels not included

Designed as an aid in locating and working with either individual or groups of file folders, File Finder Boxes inexpensively solves the problem of having to convert top-tab files to end tabbed open shelf files. Large labeling area on box front (6-7/8" W x 2-1/4") - allows for quick and easy identification of box content.

ITEM #	DESCRIPTION	ZONE I	ZONE II
FF-LT	LETTER SIZE FILEFINDER BOX (O/S 6-7/8" W x 13-1/4" D-I/S 6-5/8" x 12-3/8"	4.00	4.40
FF-LG	LEGAL SIZE FILEFINDER BOX (O/S 6-7/8" W x 16-1/4" D-I/S 6-5/8" x 15-3/8"	4.00	4.40



NOTES:

- Minimum order of 50 pieces required, all orders are bulk pack only.
- White faced corrugated box-single wall - 200# test.

All posting shelves and spacers add 2" to the height or each tier section.
To maintain uniform section heights in a file system, order SPACERS for those tier sections which will not have POSTING SHELVES.

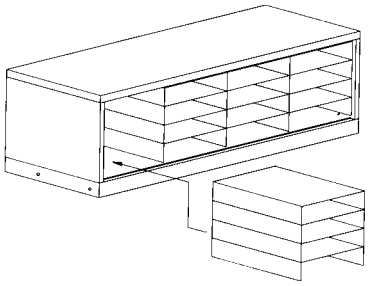
	FSLG4	LEGAL SIZE FLAT FORM STORAGE, SET OF 4	40	252.00	277.00
	USE WITH SP36LG-11 TIERS ONLY				



NOTES:

- ***Prevents Forms Outages*** - Unlike conventional file cabinets utilizing file folders for forms storage, Datum's Forms Inserts make it possible to visually track inventory.
- ***Space Efficient*** - Up to (16) 2-1/2" H slots or 40" of vertical storage space per 36" W tier.
- ***Economical*** - Designed for use inside Datum's standard 11" H plate divider tier. A typical 7-high unit can hold up to 112 different forms in a space as small as 3 square feet.
- ***Versatile*** - Can also be used to sort office mail for distribution.
- ***Durable*** - Heavy duty black painted steel construction for added strength.

GENERAL INFORMATION

Product Description: Vu-Stak® is the new solution to all of your filing needs. All Vu-Stak® tiers are stackable and modular in design, allowing for a variety of custom filing solutions. The Slant tier positions files at a 55° angle, offering greater visibility of the file folder. This unique design actually helps in the reduction of misfiled folders. While our Straight tier is designed for maximum storage capacity with minimal floor space intrusion. Its thin shelf-design eliminates wasted space between shelves for even greater storage capacity. All Vu-Stak® tiers come standard with fixed welded dividers, keeping your folders upright and neat.
Typical Application: Designed to be used in conjunction with color coded side tab folders, all Vu-Stak® tiers are manufactured with fixed welded dividers making it an ideal choice for Letter, Legal, and X-Ray file jacket storage. Tiers can be configured up to 6 levels high for X-Ray tiers, and up to 8 levels for Letter and Legal document storage. All Vu-Stak® tiers are easy to assemble and can be expanded or reconfigured at any time.

SPECIFICATIONS

Material and Workmanship: All Datum Vu-Stak® tiers are manufactured of high quality 20 gauge, cold rolled steel, free of scale or rust. Exposed edges, corners, and surface areas are free of any sharp edges. Tier components are joined together using state-of-the-art welding technologies.
Sizes and Colors: Datum Vu-Stak® tiers are available in a wide variety of sizes and colors to fit virtually any application and room décor. Vu-Stak® tier sizes include 24", 36" and 48" widths in either straight of slanted tier design. Vu-Stak® tiers are available in two standard paint colors: Bone White (T15) and Light Gray (T47). Other colors are available. See terms and conditions for more information.

Finish: All steel parts are thoroughly cleaned using a three-stage iron phosphate washer and then coated with an Epoxy-Hybrid powder coat finish using a state-of-the-art electrostatic paint system. Powder coating provides a superior, attractive, uniform finish that is more durable, scratch and corrosion resistant, and environmentally friendly than liquid paint.
Compatibility: All Datum Vu-Stak® tiers are compatible with Jeter and VuMax tiers in color and size.
Estimated Media Weights:

Letter: 2-2$^{1/2}$ pounds per filing inch
Legal: 2$^{1/2}$-3 pounds per filing inch
X-Ray: 8 pounds per filing inch

FOR ADDITIONAL INFORMATION ON ORDERING, TERMS AND CONDITIONS, PRICING AND SHIPPING, REFER TO PAGE i.

Shelving - Straight Tiers

All Vu-Stak® straight tiers are packaged two per box. All models are shown individually priced. You will require one Base & Top set for each tier section created.

*Actual dimensions of individual shelves. Refer to chart below for typical dimension information.

SLANT STYLE TIER NOTE:

Datum's Slant Style Vu-Stak® Tiers require special consideration in ordering. As indicated below, the first slanted tier in a row requires more floor space than other tiers (add-ons). When add-ons are used, tiers require only the actual opening shelf dimensions. Please refer to the dimensions below:

Overtravel Left is the number of inches that point B travels past point A.
Overtravel Right is the number of inches that point D travels past point C.
Please use OVERTRAVEL dimensions when planning for the placement of a Vu-Stak® Slant BiSlider System.

*The overall width of the system includes overtravel of carriage on each side of the system. Refer to the overtravel left and overtravel right column to plan accordingly for the amount of overtravel on each side of the system.

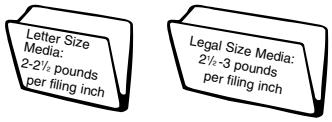
4Post™ Shelving General Information & Specifications



GENERAL INFORMATION

Product Description: Datum Standard and Medium Duty Shelving offers exceptional strength and durability for a variety of storage applications. 4Post shelving incorporates both "L" & "T" shaped uprights allowing for a variety of shelving configurations. Interlocking keyhole uprights combined with double rivet shelf supports are designed to offer maximum strength and durability with exceptional versatility. All shelf units are assembled without the use of nuts, bolts, or clips and are available for both single entry (wall unit) and double entry (back to back storage) allowing for maximum filing/storage capacity with minimal floor intrusion. Shelves are available slotted to accept adjustable file dividers. All shelf units are designed for expansion and are available as mobile ready for easy conversion to Datum TrakSlider Systems. Datum 4Post Shelving is RTA (Ready to Assemble) with no special tools required. Available depths make it an ideal choice for letter, legal, binder, and book storage applications.

SPECIFICATIONS

Open Uprights: Are 18 gauge cold rolled steel, roll formed into a 2" wide "T" upright with keyhole slot holes punched on 1-1/2" centers on inner wall of upright only. There are no holes on the exterior portion of the upright. Front and rear posts are joined together with a minimum of three 3" high 18 gauge spacers maintaining proper upright spacing along the entire length of the upright and adds rigidity and strength. The open "L" upright is typically used for row ends with Open "T" uprights used as a common upright between shelf units. All uprights include an identifiable pair of punched holes every 6" on center allowing a visual confirmation for proper shelf spacing.

Closed Uprights: Includes same specifications as the Open Uprights except welded spacers are replaced with a welded 24 gauge full height closure sheet incorporating a 5/8" wide stiffener flange at the bottom of the closure sheet.

Standard Duty Shelves: Shelves are formed of 22 gauge cold rolled steel with a 3/4" flange on all sides. Front and Back shelf sides to include a 9/32" stiffener flange for added strength. Shelves are available plain or with slots punched on 2" centers to accept adjustable file dividers.

Medium Duty Shelves: Include same specification as Standard Duty Shelving except shelves are formed of 18 gauge cold rolled steel.

TrakSlider Standard Duty Tops: Tops are formed of 22 gauge cold rolled steel with a 3/4" flange on all sides. Front and Back top sides to include a 9/32" stiffener flange for added strength. All tops are prepunched with knock-outs to accept TrakSlider overhead anti-tip mounting hardware.

Shelf Support: Shelf supports are formed of 14 gauge (11 gauge for 42" and 48" widths) hot rolled pickled steel 3/4" high. Each support end is formed flat and includes two shoulder rivets with 7/16" diameter heads for attachment to corresponding keyholes in upright. Shelf supports are available with single or double rivets. All single rivet shelf supports are designed to sit flush with bottom of shelf upright and are prepunched to align with holes on Datum TrakSlider carriages for easy attachment.

Shelf Reinforcement: Shelf reinforcements are formed of 13 gauge hot rolled, pickled steel and formed into a channel shape. Shelf reinforcements are notched on each end and align with respective shelf support.

Back Stops: Back stops are formed of 18 gauge cold rolled steel with a 7/16" channel at the top and similar bend at the bottom and are slotted on the face. Slots on Back stops are punched on same centers as the shelf and are used to accept back tab of adjustable file divider. Ends of Back stop include one shoulder rivet with 7/16" diameter head for attachment to corresponding keyholes in upright. Back stops are used for single entry
shelving only.

Center Stops: Center stops are formed of 20 gauge cold rolled steel with a 9/16" formed channel on the top and a 9/16" return bend on the bottom. Formed channels on the top are punched on same centers as the shelf and are used for back to back support of adjustable divider. The overall height of center stop is 4" and includes mounting holes on bottom flange for easy assembly using 1/4" nuts and bolts. Center stops are used for double entry shelving only.

Combo Base: Combo Bases are formed of 14 or 16 gauge cold rolled steel formed with a stiffener flange on top and bottom edge. Combo Bases are available in 2" and 4" heights.

Adjustable File Dividers: File dividers are formed from 20 gauge cold rolled steel. Dividers are punched to include two tabs on the base and one located on the rear. File dividers can only be used with Back or Center stops.

Sectional Backs: Sectional backs are formed of 20 gauge cold rolled steel, positioned on the inner rear post, and are securely held in place by a formed retainer flange positioned between the shelf support and post. Each back section will include a formed channel on the top and bottom and include punched holes for joining sections together. Backs of 40" high are one-piece, 64" high are two-piece, and up to 97" are of three-piece construction. Sectional back panels will add 3/8" to overall depth of shelving.

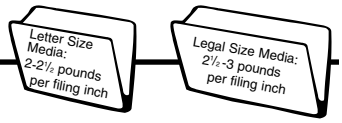
Pull Out Reference Shelves: Pull out reference shelves shall be formed of 20 gauge cold rolled steel and attach to underside of shelf supports. Pull out reference shelves operate on full extension ball bearing suspensions and are available to mount on single or double entry shelving.

Finish: All steel parts are thoroughly cleaned using a three-stage iron phosphate washer and then coated with an Epoxy-Hybrid powder coat finish using a state-of-the-art electrostatic paint system. Powder coating provides a superior, attractive, uniform finish that is more durable, scratch and corrosion resistant, and environmentally friendly than liquid paint.

POWDER COATED TOUGH™

FOR ADDITIONAL INFORMATION ON ORDERING, TERMS AND CONDITIONS, PRICING AND SHIPPING, REFER TO PAGE i.

Preconfigured 64-1/4" High, 22 Gauge



ALL PRECONFIGURED UNITS DO NOT INCLUDE DIVIDERS. PLEASE REFER TO PAGE 80 FOR DIVIDER INFORMATION.

7 Shelves, 6 Openings

All shelves are placed on 10-1/2" centers for 9-3/4" clear vertical height. Shelf supports are adjustable on 1-1/2" centers. The following units are only available as Mobile Ready Shelving (see "For Mobile Ready Shelving" notes below). Utilizing reference shelves on the following units will result in the loss of clear vertical height within one shelf opening.

6 Shelves, 5 Openings

All shelves are placed on 12" centers for 11-1/4" clear vertical height. Shelf supports are adjustable on 1-1/2" centers. When ordering reference shelves for the following units, Mobile Ready Shelving must be ordered. Not specifying Mobile Ready Shelving will result in loss of clear vertical height within one shelf opening.

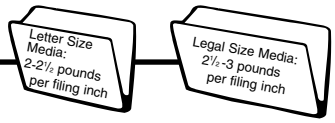
All units ship knocked down and bulk packed.
*Includes one shelf reinforcement per shelf.
**Includes two shelf reinforcements per shelf.
Shelf reinforcements are not included for top shelf.
Top shelves are unslotted and include prepunched knockout holes for TrakSlider hardware attachment.
All starter units include 2 closed "L" uprights and all adder units include 1 open "T" upright.
All units include 64-1/4" high uprights, and 2" high front base.
Shelves are 22 gauge designed for record storage. 18 gauge shelves are available, contact factory for more information.

FOR MOBILE READY SHELVING

Add "M" to the end of the model number when ordering mobile ready shelving. For example: 641224-A5M
Single rivet shelf supports replace front Combo Base and standard support on bottom shelf allowing for easy attachment to mobile carriages.
Holes are prepunched into single rivet support to match up with corresponding holes on Datum TrakSlider carriages.
When ordering mobile ready shelving to be used in conjunction with Datum TrakSlider Systems please refer to page 77 for additional hardware needs.

Preconfigured 64-1/4" High, 22 Gauge



ALL PRECONFIGURED UNITS DO NOT INCLUDE DIVIDERS. PLEASE REFER TO PAGE 80 FOR DIVIDER INFORMATION.

5 Shelves, 4 Openings

All shelves are placed on 13-1/2" centers for 12-3/4" clear vertical height. Shelf supports are adjustable on 1-1/2" centers.

All units ship knocked down and bulk packed.
*Includes one shelf reinforcement per shelf.
**Includes two shelf reinforcements per shelf.
Shelf reinforcements are not included for top shelf.
Top shelves are unslotted and include prepunched knockout holes for TrakSlider hardware attachment.
All starter units include 2 closed "L" uprights and all adder units include 1 open "T" upright.
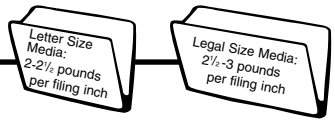
All units include 76-1/4" high uprights, and 2" high front base.
Shelves are 22 gauge designed for record storage. 18 gauge shelves are available, contact factory for more information.

FOR MOBILE READY SHELVING

Add "M" to the end of the model number when ordering mobile ready shelving. For example: 761224-A6M
Single rivet shelf supports replace front Combo Base and standard support on bottom shelf allowing for easy attachment to mobile carriages.
Holes are prepunched into single rivet support to match up with corresponding holes on Datum TrakSlider carriages.
When ordering mobile ready shelving to be used in conjunction with Datum TrakSlider Systems please refer to page 77 for additional hardware needs.

Preconfigured 76-1/4" High, 22 Gauge



ALL PRECONFIGURED UNITS DO NOT INCLUDE DIVIDERS. PLEASE REFER TO PAGE 80 FOR DIVIDER INFORMATION.

6 Shelves, 5 Openings

All shelves are placed on 13-1/2" centers for 12-3/4" clear vertical height. Shelf supports are adjustable on 1-1/2" centers.

All units ship knocked down and bulk packed.
*Includes one shelf reinforcement per shelf.
**Includes two shelf reinforcements per shelf.
Shelf reinforcements are not included for top shelf.
Top shelves are unslotted and include prepunched knockout holes for TrakSlider hardware attachment.
All starter units include 2 closed "L" uprights and all adder units include 1 open "T" upright.
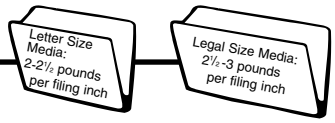
All units include 85-1/4" high uprights, and 2" high front base.
Shelves are 22 gauge designed for record storage. 18 gauge shelves are available, contact factory for more information.

FOR MOBILE READY SHELVING

Add "M" to the end of the model number when ordering mobile ready shelving. For example: 851224-A6M
Single rivet shelf supports replace front Combo Base and standard support on bottom shelf allowing for easy attachment to mobile carriages.
Holes are prepunched into single rivet support to match up with corresponding holes on Datum TrakSlider carriages.
When ordering mobile ready shelving to be used in conjunction with Datum TrakSlider Systems please refer to page 77 for additional hardware needs.

Preconfigured 85-1/4" High, 22 Gauge



ALL PRECONFIGURED UNITS DO NOT INCLUDE DIVIDERS. PLEASE REFER TO PAGE 80 FOR DIVIDER INFORMATION.

7 Shelves, 6 Openings

All shelves are placed on 13-1/2" centers for 12-3/4" clear vertical height. Shelf supports are adjustable on 1-1/2" centers.

All units ship knocked down and bulk packed.
*Includes one shelf reinforcement per shelf.
**Includes two shelf reinforcements per shelf.
Shelf reinforcements are not included for top shelf.
Top shelves are unslotted and include prepunched knockout holes for TrakSlider hardware attachment.
All starter units include 2 closed "L" uprights and all adder units include 1 open "T" upright.
All units include 88-1/4" high uprights, and 2" high front base.
Shelves are 22 gauge designed for record storage. 18 gauge shelves are available, contact factory for more information.

FOR MOBILE READY SHELVING

Add "M" to the end of the model number when ordering mobile ready shelving. For example: 881224-A6M
Single rivet shelf supports replace front Combo Base and standard support on bottom shelf allowing for easy attachment to mobile carriages.
Holes are prepunched into single rivet support to match up with corresponding holes on Datum TrakSlider carriages.
When ordering mobile ready shelving to be used in conjunction with Datum TrakSlider Systems please refer to page 77 for additional hardware needs.

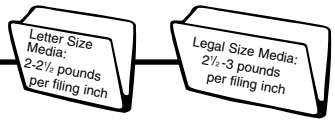
Preconfigured 97-1/4" High, 22 Gauge



ALL PRECONFIGURED UNITS DO NOT INCLUDE DIVIDERS. PLEASE REFER TO PAGE 80 FOR DIVIDER INFORMATION.

10 Shelves, 9 Openings

All shelves are placed on 10-1/2" centers for 9-3/4" clear vertical height. Shelf supports are adjustable on 1-1/2" centers. When ordering reference shelves for the following units, Mobile Ready Shelving must be ordered. Not specifying Mobile Ready Shelving will result in loss of clear vertical height within one shelf opening.

9 Shelves, 8 Openings

All shelves are placed on 12" centers for 11-1/4" clear vertical height. Shelf supports are adjustable on 1-1/2" centers. The following units are only available as Mobile Ready Shelving (see "For Mobile Ready Shelving" notes below). Utilizing reference shelves on the following units will result in the loss of clear vertical height within one shelf opening.

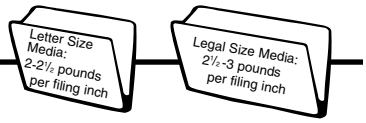
All units ship knocked down and bulk packed.
*Includes one shelf reinforcement per shelf.
**Includes two shelf reinforcements per shelf.
Shelf reinforcements are not included for top shelf.
Top shelves are unslotted and include prepunched knockout holes for TrakSlider hardware attachment.
All starter units include 2 closed "L" uprights and all adder units include 1 open "T" upright.
All units include 97-1/4" high uprights, and 2" high front base.
Shelves are 22 gauge designed for record storage. 18 gauge shelves are available, contact factory for more information.

FOR MOBILE READY SHELVING
Add "M" to the end of the model number when ordering mobile ready shelving. For example: 971224-A8M
Single rivet shelf supports replace front Combo Base and standard support on bottom shelf allowing for easy attachment to mobile carriages.
Holes are prepunched into single rivet support to match up with corresponding holes on Datum TrakSlider carriages.
When ordering mobile ready shelving to be used in conjunction with Datum TrakSlider Systems please refer to page 77 for additional hardware needs.

Preconfigured 97-1/4" High, 22 Gauge



ALL PRECONFIGURED UNITS DO NOT INCLUDE DIVIDERS. PLEASE REFER TO PAGE 80 FOR DIVIDER INFORMATION.

8 Shelves, 7 Openings

All shelves are placed on 13" centers for 12" clear vertical height. Shelf supports are adjustable on 1-1/2" centers. When ordering reference shelves for the following units, Mobile Ready Shelving must be ordered. Not specifying Mobile Ready Shelving will result in loss of clear vertical height within one shelf opening.

All units ship knocked down and bulk packed.
*Includes one shelf reinforcement per shelf.
**Includes two shelf reinforcements per shelf.
Shelf reinforcements are not included for top shelf.
Top shelves are unslotted and include prepunched knockout holes for TrakSlider hardware attachment.
All starter units include 2 closed "L" uprights and all adder units include 1 open "T" upright.
All units include 97-1/4" high uprights, and 2" high front base.
Shelves are 22 gauge designed for record storage. 18 gauge shelves are available, contact factory for more information.

FOR MOBILE READY SHELVING

Add "M" to the end of the model number when ordering mobile ready shelving. For example: 971224-A8M
Single rivet shelf supports replace front Combo Base and standard support on bottom shelf allowing for easy attachment to mobile carriages.
Holes are prepunched into single rivet support to match up with corresponding holes on Datum TrakSlider carriages.
When ordering mobile ready shelving to be used in conjunction with Datum TrakSlider Systems please refer to page 77 for additional hardware needs.

4Post™ Library Shelving General Information & Specifications

GENERAL INFORMATION

Product Description: Datum Library Shelving offers exceptional strength and durability for a variety of storage applications. 4Post shelving incorporates both "L" & "T" shaped uprights allowing for a variety of shelving configurations. Interlocking keyhole uprights combined with double rivet shelf supports are designed to offer maximum strength and durability with exceptional versatility. All shelf units are assembled without the use of nuts, bolts, or clips and are available for both single entry (wall unit) and double entry (back to back storage) allowing for maximum filing/storage capacity with minimal floor intrusion. Shelves are available slotted to accept adjustable file dividers. All shelf units are designed for expansion and are available as mobile ready for easy conversion to Datum TrakSlider Systems. Datum 4Post Shelving is RTA (Ready to Assemble) with no special tools required. Available in a variety of depths making it an ideal choice for storage applications.

SPECIFICATIONS

Closed Uprights: Are 18 gauge cold rolled steel, roll formed into a 1" wide "L" and 2" wide "T" uprights with keyhole slot holes punched on 1-1/2" centers on inner wall of upright only. There are no holes on the exterior portion of the upright. Front and rear posts are joined together with 24 gauge double wall fillers that maintains the proper upright spacing along the entire length of the upright and adds rigidity and strength. The double wall construction of our uprights helps conceal the keyhole slots presenting a clean and contemporary appearance, while preventing books from having there titles obscured. All uprights include an identifiable pair of punched holes every 6" on center allowing a visual confirmation for proper shelf spacing.

Library Shelves: Shelves are formed of 22 gauge cold rolled steel with a 3/4" flange on all sides. Front and Back shelf sides to include a 9/32" stiffener flange for added strength. Shelves are available plain or with slots punched on 2" centers to accept adjustable dividers.

TrakSlider Library Tops: Tops are formed of 22 gauge cold rolled steel with a 3/4" flange on all sides. Front and Back top sides to include a 9/32" stiffener flange for added strength. All tops are prepunched with knock-outs to accept TrakSlider overhead anti-tip mounting hardware.

Shelf Support: Shelf supports are formed of 14 gauge (11 gauge for 42" and 48" widths) hot rolled pickled steel 3/4" high. Each support end is formed flat and includes two shoulder rivets with 7/16" diameter heads for attachment to corresponding keyholes in upright. Shelf supports are available with single or double rivets. All single rivet shelf supports are designed to sit flush with bottom of shelf upright and are prepunched to align with holes on Datum TrakSlider carriages for easy attachment.

Shelf Reinforcement: Shelf reinforcements are formed of 13 gauge hot roll, pickled steel and formed into a channel shape. Shelf reinforcements are notched on each end and align with respective shelf support.

Back Stops: Back stops are formed of 18 gauge cold rolled steel with a 7/16" channel at the top and similar bend at the bottom and are slotted on the face. Slots on Back stops are punched on same centers as the shelf and are used to accept back tab of adjustable divider. Ends of Back stop include one shoulder rivet with 7/16" diameter head for attachment to corresponding keyholes in upright. Back stops are used for single entry shelving only.

Center Stops: Center stops are formed of 20 gauge cold rolled steel with a 9/16" formed channel on the top and a 9/16" return bend on the bottom. Formed channels on the top are punched on same centers as the shelf and are used for back to back support of adjustable divider. The overall height of center stop is 4" and includes mounting holes on bottom flange for easy assembly using 1/4" nuts and bolts. Center stops are used for double entry shelving only.

Combo Base: Combo Bases are formed of 14 or 16 gauge cold rolled steel formed with a stiffener flange on top and bottom edge. Combo bases are available in 2" and 4" heights.

Adjustable Dividers: Dividers are formed from 20 gauge cold rolled steel. Dividers are punched to include two tabs on the base and one located on the rear. Dividers can only be used with Back or Center stops.

Sectional Backs: Sectional backs are formed of 22 gauge cold rolled steel, positioned on the inner rear post, and are securely held in place by a formed retainer flange positioned between the shelf support and post. Each back section will include a formed channel on the top and bottom and include punched holes for joining sections together. Backs of 40" high are one-piece, 64" high are two-piece, and up to 97" are of three-piece construction. Sectional back panels will add 3/8" to overall depth of shelving.

Pull Out Reference Shelves: Pull out reference shelves shall be formed of 20 gauge cold rolled steel and attach to underside of shelf supports. Pull out reference shelves operate on full extension ball bearing suspensions and are available to mount on single or double entry shelving.

Finish: All steel parts are thoroughly cleaned using a three-stage iron phosphate washer and then coated with an Epoxy-Hybrid powder coat finish using a state-of-the-art electrostatic paint system. Powder coating provides a superior, attractive, uniform finish that is more durable, scratch and corrosion resistant, and environmentally friendly than liquid paint.

POWDER COATED TOUGH™

FOR ADDITIONAL INFORMATION ON ORDERING, TERMS AND CONDITIONS, PRICING AND SHIPPING, REFER TO PAGE i.

4Post™ Preconfigured 76-1/4" High Library Shelving, 22 Gauge

Book Size Media: 3-3 1/2 pounds per filing inch

All preconfigured units do not include dividers. Please refer to page 80 for divider information.

UNSLOTTED SHELVES

7 Shelves, 6 Openings

All shelves are placed on 12" centers for 11-1/4" clear vertical height. Shelf supports are adjustable on 1-1/2" centers. Shelves are unslotted and cannot accept dividers. Closed backs are sold separately, refer to page 79 for more information.

All units ship knocked down and bulk packed.
*Includes one shelf reinforcement per shelf.
**Includes two shelf reinforcements per shelf.
Shelf reinforcements are not included for top shelf. Top shelves are unslotted and include pre-punched knockout holes for TrakSlider hardware attachment. All starter units include 2 closed "L" uprights and all adder units include 1 closed "T" upright. All units include 64-1/4" high uprights, and 2" high front base.Shelves are 22 gauge designed, but not limited to, book storage. 18 gauge shelves are available, contact factory for more information. Used FDB dividers to 9" deep shelving, FDL dividers for all other sizes.

FOR MOBILE READY SHELVING

Add "M" to the end of the model number when ordering mobile ready shelving. For example: 641224-A5M
Single rivet shelf supports replace front Combo Base and standard support on bottom shelf allowing for easy attachment to mobile carriages.
Holes are prepunched into single rivet support to match up with corresponding holes on Datum TrakSlider carriages.
When ordering mobile ready shelving to be used in conjunction with Datum TrakSlider Systems please refer to page 77 for additional hardware needs.

4Post™ Preconfigured 88-1/4" High Library Shelving, 22 Gauge

Book Size Media: 3-3 1/2 pounds per filing inch

All preconfigured units do not include dividers. Please refer to page 80 for divider information.

UNSLOTTED SHELVES

8 Shelves, 7 Openings

All shelves are placed on 12" centers for 11-1/4" clear vertical height. Shelf supports are adjustable on 1-1/2" centers. Shelves are unslotted and cannot accept dividers. Closed backs are sold separately, refer to page 79 for more information. Includes UnSlotted Center and/or

All units ship knocked down and bulk packed.
*Includes one shelf reinforcement per shelf.
**Includes two shelf reinforcements per shelf.
Shelf reinforcements are not included for top shelf.
Top shelves are unslotted and include prepunched knockout holes for TrakSlider hardware attachment.
All starter units include 2 closed "L" uprights and all adder units include 1 closed "T" upright.
All units include 64-1/4" high uprights, and 2" high front base.
Shelves are 22 gauge designed, but not limited to, book storage. 18 gauge shelves are available, contact factory for more information. Used FDB dividers to 9" deep shelving, FDL dividers for all other sizes.

FOR MOBILE READY SHELVING

Add "M" to the end of the model number when ordering mobile ready shelving. For example: 641224-A5M
Single rivet shelf supports replace front Combo Base and standard support on bottom shelf allowing for easy attachment to mobile carriages.
Holes are prepunched into single rivet support to match up with corresponding holes on Datum TrakSlider carriages.
When ordering mobile ready shelving to be used in conjunction with Datum TrakSlider Systems please refer to page 77 for additional hardware needs.

X-Ray Storage Shelving General Information & Specifications

X-Ray Size Media: 8 pounds per filing inch

GENERAL INFORMATION

Product Description: Datum X-Ray Storage Shelving offers exceptional strength and durability making it an ideal choice for heavyweight X-Ray jacket applications. 4Post Shelving incorporates both "L" & "T" shaped uprights allowing for a variety of shelving configurations. Interlocking key-hole uprights combined with double rivet shelf supports are designed to offer maximum strength and durability with exceptional versatility. All shelf units are assembled without the use of nuts, bolts, or clips and are available for both single entry (wall unit) and double entry (back to back storage) allowing for maximum filing/storage capacity with minimal floor intrusion. Shelves are available slotted to accept adjustable file dividers. All shelf units are designed for expansion and are available as mobile ready for easy conversion to Datum TrakSlider Systems. Datum 4Post Shelving is RTA (Ready to Assemble) with no special tools required.

SPECIFICATIONS

Open Uprights: Are 18 gauge cold rolled steel, roll formed into a 2" wide "T" upright with keyhole slot holes punched on 1-1/2" centers on inner wall of upright only. There are no holes on the exterior portion of the upright. Front and rear posts are joined together with a minimum of three 3" high 18 gauge spacers maintaining proper upright spacing along the entire length of the upright and adds rigidity and strength. The open "L" upright is typically used for row ends with Open "T" uprights used as a common upright between shelf units. All uprights include an identifiable pair of punched holes every 6" on center allowing a visual confirmation for proper shelf spacing.

Closed Uprights: Includes same specifications as the Open Uprights except welded spacers are replaced with a welded 24 gauge full height closure sheet incorporating a 5/8" wide stiffener flange at the bottom of the closure sheet.

X-Ray Shelves: Shelves are formed of 18 gauge cold rolled steel with a 1-1/8" flange on all sides. Front and Back shelf sides to include a 9/32"
stiffener flange for added strength. Shelves are available plain or with slots punched on 2" centers to accept adjustable file dividers.

TrakSlider Standard Duty Tops: Tops are formed of 18 gauge cold rolled steel with a 1-1/8" flange on all sides. Front and Back top sides to include a 9/32" stiffener flange for added strength. All tops are prepunched with knock-outs to accept TrakSlider overhead anti-tip mounting hardware.

Heavy Duty Shelf Support: Shelf supports are formed of 11 or 14 gauge (11 gauge for 42" and 48" widths) hot rolled pickled steel 1-1/8" high. Each support end is formed flat and includes two shoulder rivets with 7/16" diameter heads for attachment to corresponding key holes in upright. Shelf supports are available with single or double rivets. All single rivet shelf supports are designed to sit flush with bottom of shelf upright and are prepunched to align with holes on Datum TrakSlider carriages for easy attachment.

Heavy Duty Shelf Reinforcement: Shelf reinforcements are formed of 13 gauge hot rolled, pickled steel and formed into a channel shape. Shelf reinforcements are notched on each end and align with respective shelf support.

Slotted X-Ray Back Stops: Back stops are formed of 18 gauge cold rolled steel with a 7/16" channel at the top and similar bend at the bottom and are slotted on the face. Slots on Back stops are punched on same centers as the shelf and are used to accept back tab of adjustable file divider. Ends of Back stop include one shoulder rivet with 7/16" diameter head for attachment to corresponding keyholes in upright. Back stops are used for single entry shelving only.

Slotted X-Ray Center Stops: Center stops are formed of 18 gauge cold rolled steel with a 9/16" formed channel on the top and a 9/16" return bend on the bottom. Formed channels on the top are punched on same centers as the shelf and are used for back to back support of adjustable divider. The overall height of center stop is 7" and includes mounting holes on bottom flange for easy assembly using 1/4" nuts and bolts. Center stops are used for double entry shelving only.

Combo Base: Combo Bases are formed of 14 or 16 gauge cold rolled steel formed with a stiffener flange on top and bottom edge. Combo bases are available in 2" and 4" heights.

Adjustable File Dividers: X-Ray dividers are formed from 18 gauge cold rolled steel. Dividers are punched to include two tabs on the base and one located on the rear. X-Ray file dividers can be used with X-Ray Back and Center stops only.

Sectional Backs: Sectional backs are formed of 22 gauge cold rolled steel, positioned on the inner rear post, and are securely held in place by a formed retainer flange positioned between the shelf support and post. Each back section will include a formed channel on the top and bottom and include punched holes for joining sections together. Backs of 40" high are one-piece, 64" high are two-piece, and up to 97" are of three-piece construction. Sectional back panels will add 3/8" to overall depth of shelving.

Finish: All steel parts are thoroughly cleaned using a three-stage iron phosphate washer and then coated with an Epoxy-Hybrid powder coat finish using a state-of-the-art electrostatic paint system. Powder coating provides a superior, attractive, uniform finish that is more durable, scratch and corrosion resistant, and environmentally friendly than liquid paint.

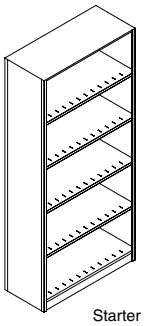
POWDER COATED TOUGH™

FOR ADDITIONAL INFORMATION ON ORDERING, TERMS AND CONDITIONS, PRICING AND SHIPPING, REFER TO PAGE i.

Preconfigured X-Ray

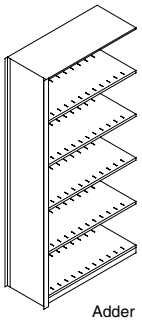
X-Ray Size Media: 8 pounds per filing inch

ALL PRECONFIGURED UNITS DO NOT INCLUDE DIVIDERS. PLEASE REFER TO PAGE 80 FOR DIVIDER INFORMATION.



Starter

All units include 85-1/4" high uprights, and 2" high front base.



Adder

85" High, 6 Shelves, 5 Openings

All shelves are placed on 16-1/2" centers for 15-1/4" clear vertical height. Shelf supports are adjustable on 1-1/2" centers.

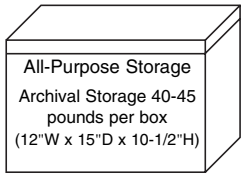
All units ship knocked down and bulk packed.
**Includes two shelf reinforcements per shelf.
†Includes three shelf reinforcements per shelf.
§Includes four shelf reinforcements per shelf.
Shelf reinforcements are not included for top shelf.
All starter units include 2 closed "L" uprights and all adder units include 1 closed "T" upright.
Shelves are 18 gauge designed for X-Ray file jacket storage.
Top shelves are unslotted and include prepunched knockout holes for TrakSlider hardware attachment.

FOR MOBILE READY SHELVING

Add "M" to the end of the model number when order mobile ready shelving. For example: 881824-A5M
Single rivet shelf supports replace front Combo Base and standard support on bottom shelf allowing for easy attachment to mobile carriages.
Holes are prepunched into single rivet support to match up with corresponding holes on Datum TrakSlider carriages.
When ordering mobile ready shelving to be used in conjunction with Datum TrakSlider Systems please refer to page 77 for additional hardware needs.

4Post Heavy-Duty General Information & Specifications



ALL PRECONFIGURED UNITS DO NOT INCLUDE DIVIDERS. PLEASE REFER TO PAGE 80 FOR DIVIDER INFORMATION.

GENERAL INFORMATION

Product Description: Datum Heavy Duty Shelving offers exceptional strength and durability for a variety of storage applications. 4Post shelving incorporates both "L" & "T" shaped uprights allowing for a variety of shelving configurations. Interlocking keyhole uprights combined with double rivet shelf supports are designed to offer maximum strength and durability with exceptional versatility. All shelf units are assembled without the use of nuts, bolts, or clips and are available for both single entry (wall unit) and double entry (back to back storage) allowing for maximum filing/storage capacity with minimal floor intrusion. All shelf units are designed for expansion and are available as mobile ready for easy conversion to Datum TrakSlider Systems. Datum 4Post Shelving is RTA (Ready to Assemble) with no special tools required. Available depths make it an ideal choice bulk storage application.

SPECIFICATIONS

Open Uprights: Are 18 gauge cold rolled steel, roll formed into a 2" wide "T" upright with keyhole slot holes punched on 1-1/2" centers on inner wall of upright only. There are no holes on the exterior portion of the upright. Front and rear posts are joined together with a minimum of three 3" high 18 gauge spacers maintaining proper upright spacing along the entire length of the upright and adds rigidity and strength. The open "L" upright is typically used for row ends with Open "T" uprights used as a common upright between shelf units. All uprights include an identifiable pair of punched holes every 6" on center allowing a visual confirmation for proper shelf spacing.

Closed Uprights: Includes same specifications as the Open Uprights except welded spacers are replaced with a welded 24 gauge full height closure sheet incorporating a 5/8' wide stiffener flange at the bottom of the closure sheet.

Heavy Duty Shelves: Shelves are formed of 18 gauge cold rolled steel with a 1-1/8" flange on all sides. Front and Back shelf sides to include a 9/32" stiffener flange for added strength. Shelves are available plain or with slots punched on 2" centers to accept adjustable file dividers.

TrakSlider Standard Duty Tops: Tops are formed of 18 gauge cold rolled steel with a 1-1/8" flange on all sides. Front and Back top sides to include a 9/32" stiffener flange for added strength. All tops are prepunched with knock-outs to accept TrakSlider overhead anti-tip mounting hardware.

Heavy Duty Shelf Support: Shelf supports are formed of 11 or 14 gauge (11 gauge on 42" & 48" widths only) hot rolled pickled steel 1-1/8" high. Each "support end is formed flat and includes two shoulder rivets with 7/16" diameter heads for attachment to corresponding keyholes in upright. Shelf supports are available with single or double rivets. All single rivet shelf supports are designed to sit flush with bottom of shelf upright and are prepunched to align with holes on Datum TrakSlider carriages for easy attachment.

Heavy Duty Shelf Reinforcement: Shelf reinforcements are formed of 13 gauge hot rolled, pickled steel and formed into a channel shape. Shelf reinforcements are notched on each end and align with respective shelf support.

Unslotted Center Divider: Unslotted center dividers are formed of 18 gauge cold rolled steel with a 9/16" formed channel on the top and a 9/16" return bend on the bottom. The overall height of center stop is 4" and includes mounting holes on bottom flange for easy assembly using 7/32" nuts and bolts. Center stops are used for unslotted double entry shelving only.

Combo Base: Combo Bases are formed of 14 or 16 gauge cold rolled steel formed with a stiffener flange on top and bottom edge. Combo bases are available in 2" and 4" heights.

Sectional Backs: Sectional backs are formed of 20 gauge cold rolled steel, positioned on the inner rear post, and are securely held in place by a formed retainer flange positioned between the shelf support and post. Each back section will include a formed channel on the top and bottom and include punched holes for joining sections together. Backs of 40" high are one-piece, 64" high are two-piece, and up to 97" are of three-piece construction. Sectional back panels will add 3/8" to overall depth of shelving.

Finish: All steel parts are thoroughly cleaned using a three-stage iron phosphate washer and then coated with an Epoxy-Hybrid powder coat finish using a state-of-the-art electrostatic paint system. Powder coating provides a superior, attractive, uniform finish that is more durable, scratch and corrosion resistant, and environmentally friendly than liquid paint.

POWDER COATED TOUGH™

All units ship knocked down and bulk packed.

*Includes one shelf reinforcement per shelf.

Shelf reinforcements are not included for top shelf.

All starter units include 2 closed "L" uprights and all adder units include 1 closed "T" upright.

All units include 88-1/4" high uprights.

Shelves are 18 gauge.

Top shelves are unslotted and include prepunched knockout holes for TrakSlider hardware attachment.

FOR MOBILE READY SHELVING

Add "M" to the end of the model number when ordering mobile ready shelving. For example: 881224-A6HM

Single rivet shelf supports replace standard supports on bottom shelf allowing for easy attachment to mobile carriages.

Holes are prepunched into single rivet support to match up with corresponding holes on Datum TrakSlider carriages.

When ordering mobile ready shelving to be used in conjunction with Datum TrakSlider Systems please refer to page 77 for additional hardware needs.

Prepackaged 4Post-In-A-Box

Letter Size Media: 2-2½ pounds per filing inch

X-Ray Size Media: 8 pounds per filing inch

EACH 4POST ITEM # BELOW SHIPS IN ONE, ALL ENCOMPASSING BOX WHICH INCLUDES ALL UPRIGHTS, SHELVES, SHELF SUPPORTS, REINFORCEMENTS (IF APPLICABLE) BACKSTOPS OR CENTER STOPS, FRONT BASE, AND 3 DIVIDERS PER SHELF OPENING. FOR ADDITIONAL PRODUCT SPECIFICATIONS PLEASE REFER TO PAGE 45 (LETTER) AND PAGE 59 (X-RAY).

All letter prepackaged starter kits include:
- 2 closed "L" uprights
- slotted shelves
- top shelf
- shelf supports
- reinforcements (as noted)
- backstops or centerstops
- dividers
- 2" front Combo Base

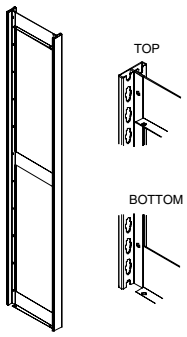
Open "L" and Open "T" uprights are not recommended for X-Ray applications.

Custom sizes are available, consult factory for more information.

All uprights are double keyhole punched on 1-1/2" centers.



Upright Extension Kits

4Post™ Upright Extension Kits extend the current height of the 4Post™ unit to increase usable vertical storage space. Extension kits can be added to 4Post™ stationary units and/or units on MobileTrak5® Systems. Extension Kits CANNOT be used with TrakSlider™ Systems.

L Upright Extension Conversion Chart

Current Upright Height	Proposed Upright Height: 40-1/4"	64-1/4"	76-1/4"	85-1/4"	88-1/4"	97-1/4"	121-1/4"

For applications requiring upright heights greater that 121-1/2", consult the factory.
All 4Post™ adder units require 1 "T" Upright Extension Kit.
Replace "XX" in each part number with the depth of the upright.

Upright Extension Kits

Allows for custom uprights up to 121-1/4" high. Simple assembly, includes all necessary mounting hardware. Upright Extension Kits are only available as closed uprights. Upright Extension Kits can be used with open or closed "L" and "T" uprights. Additional shelves and supports are sold separately.

Note: All 4Post™ starter units require 2 "L" Upright Extension Kits.
All 4Post™ adder units require 1 "T" Upright Extension Kit.
Not compatible with Library Closed L or T uprights.

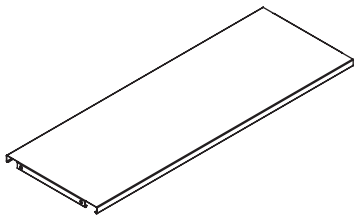
TrakSlider Library Shelf Top should be used in conjunction with Datum Library 4Post Shelving.

THE DATUM 4POST TOP SHELF CAN BE USED IN CONJUNCTION WITH DATUM'S TRAKSLIDER TOP SHELF SUPPORT (SEE PAGE 77) TO CREATE A 4POST TRAKSLIDER SYSTEM (BI, TRI, OR QUAD) OR TO RETROFIT AN EXISTING SYSTEM IN THE FIELD. ALL TRAKSLIDER SHELF TOPS ARE PREPUNCHED WITH KNOCK OUTS TO ACCEPT MOUNTING OF OVERHEAD ANTI-TIP HARDWARE, NO DRILLING REQUIRED.



3/4" high.
22 gauge.
All shelves require two SS-XXXX shelf supports.

The Datum TrakSlider Top Shelf is to be used in conjunction with Datum TrakSlider Systems. TrakSlider Top Shelf Supports ensure that the overhead anti-tip mechanism is properly attached and is strongly recommended.

Please refer to the information below when ordering a Datum 4Post TrakSlider System as components parts or when converting stationary 4Post to a TrakSlider System.

	STARTER	ADDER
BiSlider	Deduct one shelf support*	Deduct two shelf supports*
TriSlider	Deduct one shelf support*	Deduct four shelf supports*
QuadSlider	Deduct one shelf support*	Deduct six shelf supports*

*Shelf supports are available in Standard Duty, Medium Duty, and Heavy Duty. Please deduct corresponding shelf supports. For example, if Standard Duty Shelving is being used, deduct Standard Duty Shelf Supports.

Component Parts - Shelf Supports, Reinforcements & Touch-Up Paint

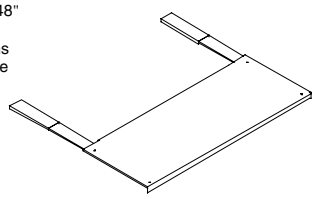
RSK30	30"	30"	1	11	59.50	65.50
RSK36	30"	36"	1	13	59.50	65.50
Reference Shelf (includes pull-out suspension)						
RSA	30"	11-7/8"	1	8	54.60	60.10

Includes mounting brackets and one pull out reference shelf.
Available for 36", 42", and 48" wide shelves only.
For double entry applications order an additional reference shelf (RSA).
One shelf opening will be reduced by 1".



*Refers to depth of shelf to which Reference Shelf is being mounted. For example, a RSK12 Reference Shelf Kit would be ordered for a 12" deep shelf.

Actual Reference Shelf dimensions: 30" W x 11-7/8" D.

Custom Upright Charge

ITEM #	DESCRIPTION	NET COST ZONE I	NET COST ZONE II
Set-up fee	Open L&T Upright (Per Size)	12.20	13.40
Set-up fee	Closed L&T Upright (Per Size)	30.30	33.30
Cut Charge	Open L&T Upright (Each)	2.50	2.80
Cut Charge	Closed L&T Upright (Each)	3.70	4.10

Custom size uprights are available up to 97-1/4" high and must be sized based on 1-1/2" increments. Use next higher upright height when calculating cut charges.
Note: Adjusting upright height will effect clear height requirements between shelves and may limit the ability to use Reference Shelves and/or Bin Dividers.
Refer to the 4Post™ Standard Shelf Spacing Chart found on pages 92 and 93 for more information.

How to Order:

Specify with two Standard Duty 4Post™ shelf supports found on page 78.
Refer to page 90-91 for standard clear height opening requirements.
Specify two Easy Rollers per book up to 18" book height.
Dividers can be specified to keep books separated on shelf.

Manufactured of 22 gauge steel with a minimum of (4) nylon rollers.

*Capacity based on hanging folders stored left-to-right.

All drawers include (1) pair of hanging folder rods for left to right hanging folder storage.

Letter drawers are designed to accommodate letter media (left to right filing). Legal size media requires the use of FTB rails sold separately (see page 85). Specify correct media depth. Specify 15" and/or 30" deep 4Post™ uprights.

Legal drawers are designed to accommodate legal size files. Mixed media requires the use of FTB rails sold separately (see page 85). Specify correct media depth. Specify 18" and/or 36" deep 4Post™ uprights.

Reinforcement

One pair of Drawer Reinforcements are required for every 4 levels of drawers. Drawer Reinforcements provide added strength.

Item #	Description	Width	Height	Est. Lbs.	Zone I	Zone II

GENERAL INFORMATION

Product Description: The Datum TambourDoor™ is designed to retrofit onto new or existing open shelf storage units to ensure the security and privacy of medical records and other types of sensitive media. Easily mounted onto most shelving units, the Datum TambourDoor™ includes a spring tensioned door which rides along a track, recessing into a top mounted housing, allowing for quick access to media. All doors include a conveniently located built-in handle for easy open/close. TambourDoor™ is available in three standard widths and able to install onto most existing shelving up to 88" high, making it an ideal HIPAA solution. Each TambourDoor™ unit includes all necessary mounting hardware and lock with two keys.

SPECIFICATIONS

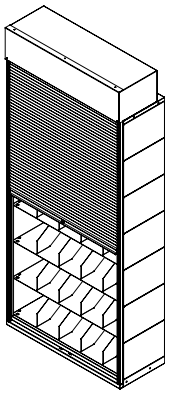
Upright Rails: Each upright is formed of a one piece 16 gauge cold rolled steel channel running the entire height of cabinet. Each door assembly includes one pair of rail assemblies designed to install flush to face of shelving, and are securely fastened with appropriate mounting hardware. Each Upright Rail includes a formed c-shaped molded PVC guide-channel allowing for smooth door operation. Each rail assembly includes interlocking tabs allowing for proper spacing when attached to Door Base.
Door Base: Formed of 18 gauge cold rolled steel into a one-inch high channel. Door Base is positioned on the floor, includes corresponding slots for proper spacing for upright rails, and pre-punched for lock mechanism.
Door Housing: Formed of 18 gauge cold rolled steel into a box shape and designed to fit the TambourDoor™ mechanism. Includes pre-punched holes for proper alignment and attachment onto all Datum shelving. All mounting hardware included. Door Housing will add 9" to the height of shelving.
Tambour Door: Manufactured of plastic and extruded from high strength, wear resistant thermo plastic. All doors include factory pre-tensioned spring-loaded mechanism for proper balance and movement of door. All doors have built-in handle located approximately 32" from floor and include pincer-action lock with two keys. Locks are random keyed. Master keys are available.
Finish: All steel parts are thoroughly cleaned using a three-stage iron phosphate washer and then coated with an Epoxy-Hybrid powder coat finish using a state-of-the-art electrostatic paint system. Powder coating provides a superior, attractive, uniform finish that is more durable, scratch and corrosion resistant, and environmentally friendly than liquid paint.

POWDER COATED TOUGH™

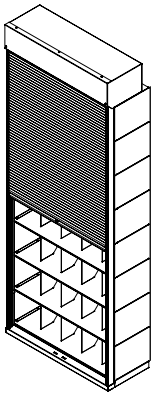
FOR ADDITIONAL INFORMATION ON ORDERING, TERMS AND CONDITIONS, PRICING AND SHIPPING, REFER TO PAGE i.

How to Order

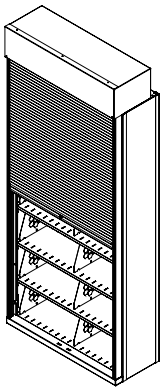
Datum TambourDoor™ Systems are designed to work in conjunction with stationary shelving only! Tambour Door Systems™ are designed for Datum's 4Post™, ThinStak® and Vu-Stak® Shelving. For any compatibility issues with other manufacturer's shelving, please consult factory before ordering.



ThinStak® TambourDoor



Vu-Stak® TambourDoor



4Post™ TambourDoor

STEP 1

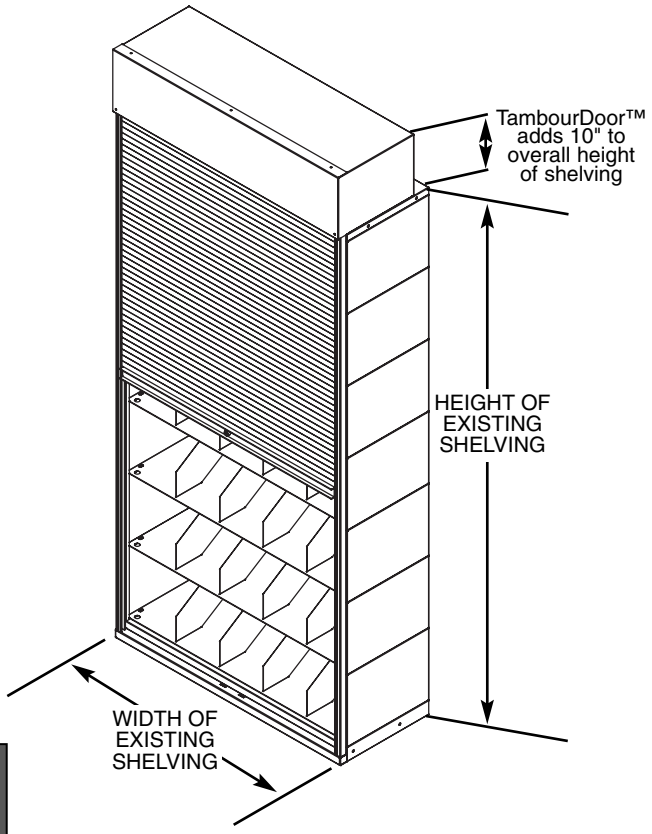
Determine overall height and width of cabinet.

Refer to diagram for proper dimensions. The Datum TambourDoor™ mounts to the top of each shelving unit, increasing overall unit height by 10". Consult local fire code regulations when any fire sprinklers are visible. When calculating overall height, dimension to be rounded to nearest whole number where applicable. Example: 64-1/4" high to be rounded to 64" high.

STEP 2

Specify color.

TambourDoors™ are available in two colors only. Refer to the following chart for color specification. Choose standard paint color selection for door frame and housing. See chart below for the corresponding tambour color.



STANDARD DATUM PAINT	CORRESPONDING TAMBOUR DOOR COLOR	
	Charcoal Gray	Putty
Bone White (T15)		X
Light Gray (T47)	X	
Gray Mist (T86)	X	
Dove Gray (T12)	X	
Soft White (T46)		X
Warm Brown (T22)	X	
Black (T25)	X	
Light Gray Metallic (T34)	X	
Medium Gray Metallic (T23)	X	
Dark Gray Metallic (T45)	X	
Tan Metallic (T56)	X	
Mist Green Metallic (T14)	X	

All Datum TambourDoor™ kits will add 10" to overall height and 3-1/4" to overall depth of shelving. Overall height of doors as shown includes base and top set and/or reference shelf/spacer kit when used.

GENERAL INFORMATION

Product Description: The Datum TrakSlider™ mobile system is designed to increase storage capacity in a minimal amount of floor space while still retaining a high degree of accessibility. Our unique design enables more than half the system to be accessible at any time. All Datum systems are designed to eliminate the need for access aisles between shelves. By eliminating fixed aisles between shelves, retrieval time is reduced and user efficiency is increased. All Datum systems are designed to accept a variety of media storage requirements. All systems are modular in design and can be reconfigured and added onto at any time without the need to disassemble, relocate, or remove existing files.

All Datum TrakSlider™ mobile systems consist of modular, all-welded steel frame and rail assemblies, flush decking, single or multiple row(s) of lateral rolling carriages, and overhead stabilizer & roller assemblies. All systems can be configured as a Bi, Tri, and/or QuadSlider System. All TrakSlider™ carriages include four wheels that ride on a double rail track for an added measure of stability and safety.

SPECIFICATIONS

Material and Workmanship: All Datum mobile systems are manufactured from high quality, cold rolled steel, free of scale or rust. Exposed corners, and surface areas are free of any sharp edges. All rails, stabilizer and carriage assemblies are joined together using state-of-the-art welding technologies.

Tracks: Each modular track assembly will consist of two 14 gauge formed steel rails. The rail assembly will be welded to a minimum of 4 corresponding 14 gauge steel support channels. Track assemblies are easily leveled by adjusting built-in leveling glides found in the support channel located every 12 inches on center. End stops are installed at each end of the rail assembly to provide a safe, cushioned stop for the mobile carriage. All track assemblies include a stainless steel decorative cap. This cap will be attached to the front of the track assembly giving it a finished profile.

Decking: Decking will be manufactured of 16 gauge formed steel, coated with a non skid textured finish. Deck panels will be installed between each rail creating a smooth unobstructed finish.

Top Stabilizers: Top stabilizers consist of a single or double 18 gauge steel formed channel attached to the stationary rack, and a 14 gauge steel bracket with two 1-3/8" nylon faced ball bearing rollers attached to the top of each mobile rack. The bearing assembly will be adjustable to compensate for any irregularities in the floor.

Carriages: Carriages consist of sections of "U" shaped formed cold rolled steel 13 gauge and 14 gauge stringers and cross members, all electrically welded to form a strong and durable frame.

Wheels: Carriage wheels will be 2-3/16" in diameter and made of Delrin®. Each wheel will have (1) 1-7/8" diameter heavy-duty, double sealed, permanently lubricated ball bearing. There are a total of four wheel assemblies per carriage.

Finish: All steel parts are thoroughly cleaned using a three-stage iron phosphate washer and then coated with an Epoxy-Hybrid powder coat finish using a state-of-the-art electrostatic paint system. Powder coating provides a superior, attractive, uniform finish that is more durable, scratch and corrosion resistant, and environmentally friendly than liquid paint. Track assemblies are available in black paint only.

Size: TrakSlider Systems are available in three standard configurations (Bi, Tri, and Quad) to fit virtually any storage requirement and room size.

Specifying and Ordering: To help select the right application for your needs, Datum offers three different track systems:

Preconfigured Assemblies: All Datum track systems are designed to fit virtually any type of shelving. We have also made it easy to order. Simply pick the system to fit your shelving application and room requirements. Again, one part number will include all necessary track and hardware for a complete system.

Starter and Add-On Track Assemblies: All track assemblies are available as individual components, which can be mixed and matched in virtually endless configurations for optimum space utilization. All track assemblies can be joined together to create a customized filing system. Please note that when ordering systems as individual components, you will require at least one Starter track assembly.

* Media Size: Letter 12" up to 13-3/16" deep • Legal 15" up to 16-3/16" deep • X-Ray 18" up to 19-3/16" deep.
** All starter track assemblies include track, and hardware only. All add-on track assemblies include track, hardware, and one mobile carriage for BiSlider and two mobile carriages for TriSlider, and three mobile carriages for QuadSlider.

Carriage Components (Tiers and Bases are Not Included)

All carriage assemblies come complete with overhead anti-tip and all necessary attachment hardware.
Conversion plates, tiers and bases are not included.

Technical Furniture System™ General Information & Specifications

GENERAL INFORMATION

Product Description: Technical Furniture Systems that work as good as they look! Ideal for any IT room, Datum's LAN (Local Area Network) Furniture can be used for assembly stations, shipping, or any other department. Choose from several preconfigured models or create your own custom layout.

SPECIFICATIONS

Packaging: Preconfigured units are packed in a single box except the corner units.
Frames: 14 gauge welded steel uprights slotted on both sides with 1/2" slots on 1"centers. Cross-members are made from 14 gauge cold rolled steel. All frames include an integral wire management system that provides both horizontal and vertical wire management without any additional equipment. Uprights are designed to allow cabling to pass through unimpeded from frame to frame. Frames can be easily connected together as needs change. Frames ship knocked down and easily snap together during assembly. Frames are available in 36", 48", 60", 72", and 84" heights and 24", 30", 36" and 42" widths.
Caster kit: Locking and non-locking 3" diameter heavy-duty casters. Locking casters feature a dual locking mechanism that prevents the unit from rolling and swiveling. Casters are interchangeable with the leveling glides.
Corner Posts: Constructed from 11, 14, and 20 gauge cold rolled steel and provide the ability to connect frames at 90° angles. Posts are designed to allow cabling to pass through unimpeded from frame to frame. Each post includes one leveling glide for support.
Footings: Fabricated from 11 gauge cold rolled steel formed in a high strength box design. Footings are designed to accept either glides or casters without modifications. Footings are available in single, double, and short depth sizes.
Work-Surface Support Legs: Provide additional support to work-surfaces when required in heavy-duty applications. Support legs are adjustable in 1" increments for use on work-surfaces from 26" to 42" high. Support legs are constructed from 14 gauge cold rolled steel.
Work-Surfaces: Constructed from 1-1/8" thick 55 pound density particleboard core with 1/16" high-pressure laminate work-surface, the underside of work-surface to be covered with phenolic moisture resistant backer sheet. Work-surface edges to be covered with a PVC edge. Work-surfaces mount to frames with 13 gauge steel support brackets. They can be positioned in 1" increments on frames. Support brackets include an integral anti-knock out mechanism to prevent accidental dislodgment. Available in 24", 30" and 36" depth and from 24" to 72" width. 700 pound capacity.
Fixed Shelves: 14 gauge (sides) and 16 gauge (shelf) cold rolled steel. Shelves are available in 15", 18" and 21" depths and 24", 30", 36", 42", and 48" widths. Maximum shelf capacity is 250 pounds. Shelves include an integral anti-knock out mechanism to prevent accidental dislodgment.
Heavy Duty Shelves: 14 gauge (sides) and 16 gauge (shelf) with hat channels. Available in 15", 18" and 21" depths. 500 pound capacity with anti-knockout tabs.
Slotted Monitor Shelves: 14 gauge (sides) and 16 gauge (shelf) cold rolled steel. Shelves are available in 15", 18", and 21" depths and 24", 30", 36", 42", and 48" widths. Shelves are equipped with a lip (removable) to help prevent monitor from sliding off. Maximum shelf capacity is 250 pounds. Shelves include an integral anti-knock out mechanism to prevent accidental dislodgment.
Adjustable Shelves: 14 gauge (sides) and 16 gauge (shelf) cold rolled steel. Shelves are available in 15", 18", and 21" depths and 24", 30", 36", 42", and 48" widths. Shelves are equipped with a lip (removable) to help prevent monitor from sliding off. Shelf can be tilted 15° forward or backward. Maximum shelf capacity is 250 pounds. Shelves include an integral anti-knock out mechanism to prevent accidental dislodgment.
Adjustable Monitor Shelves: 14 gauge (sides) and 16 gauge (shelf) cold rolled steel. Shelves are available in 15", 18" and 21" depths and 24", 30", 36", 42", and 48" widths. Shelf can be tilted 15 degrees forward or backward. Shelves are equipped with a lip (removable) to help prevent monitor from sliding off. Maximum shelf capacity is 250 pounds. Shelves include an integral anti-knock out mechanism to prevent accidental dislodgment.
Corner Shelves: 14 gauge (sides) and 16 gauge (shelf) cold rolled steel. Shelves are available in 15", and 18", depths and 36", and 42" widths. 45° corner shelves available in 15" depth only. Maximum shelf capacity is 250 pounds. Shelves include an integral anti-knock out mechanism to prevent accidental dislodgment.
Fixed Server Shelves: 16 gauge cold rolled steel and are equipped with 16 gauge reinforcing channels. The shelves mount to the tops of the footings. Maximum weight capacity is 300 pounds.
Pull-Out Server Shelves: 14, 16, and 20 gauge cold rolled steel. Shelves are equipped with four 3" diameter wheels for easy movement. Each shelf includes 1 handle for use while moving unit. 300 pound capacity.
Flipper Door Cabinets: Flip up and receding door with lock. Cabinet door and sides are constructed from 5/8" thick particleboard laminated on both sides with 1/16" high-pressure laminate. Cabinet top, bottom, divider, and rear panel are constructed from 16 and 20 gauge cold rolled steel. Retractable door with self-closing suspension. Cabinets include an integral anti-knock out mechanism to prevent accidental dislodgment.
Pedestals: Heavy-duty steel construction with gang locking drawer mechanism. Drawers feature heavy-duty 200 pound capacity precision ball bearing suspension. All drawers are full suspension types and feature a lifetime warranty. Drawer fronts are constructed from 5/8" particleboard with 1/16" high-pressure laminate on both sides. Pedestals are keyed differently with master key available. Mobile pedestals feature five 2" diameter dual wheel casters two with brakes.

Technical Furniture System™ General Information & Specifications, Continued

Rack Mount Brackets: When used in conjuction with 24" wide frame provide a mounting system for 19" rack mount equipment. Brackets are made from 14 gauge cold rolled steel and include threaded 10-32 mounting holes. Rack Mount brackets include an integral anti-knock out mechanism to prevent accidental dislodgment.

End Caps: 16 and 20 gauge cold rolled steel. End caps attach without any tools to the side of TFS frames and provide a decorative finished appearance to the frame. They are available with and without grommets.

Power Strips: Standard strip includes 5 receptacles, on/off switch, circuit breaker, and 60" long cord. Power strips are rated at 15 amps. Surge protector strip includes 4 receptacles, on/off switch, circuit breaker, surge protector, and 60" long cord. Both units include hardware to mount under work-surfaces and to frames.

Power Bars: 24" and 48" sizes; both units include 8 receptacles, on/off switch, circuit breaker, and 72" long cord. Power bars are rated at 15 amps. Both units include hardware to mount under work-surfaces and to frames.

Power Link: 15 amp, 3 curcuit, 7 wire system that must be hard wired to building's electrical system.

Vertical Cable Managers: Provides a simple means to cover the wiring that runs vertically in the TFS frame. Cable Managers mount in slots provided on the inner side of the frame. They are constructed from 16 gauge cold rolled steel.

Finish: All steel parts are thoroughly cleaned using a three-stage iron phosphate washer and then coated with an Epoxy-Hybrid powder coat finish using a state-of-the-art electrostatic paint system. Powder coating provides a superior, attractive, uniform finish that is more durable, scratch and corrosion resistant, and environmentally friendly than liquid paint.

POWDER COATED TOUGH™

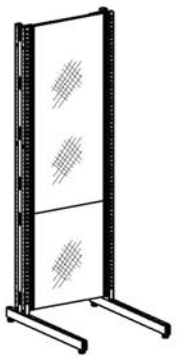
Component Parts - Posts, Casters & Worksurfaces

Top Caps

ITEM #	DESCRIPTION	ZONE I	ZONE II
TF-0124TC	Top Cap for 24" w/Frame	44.00	48.00
TF-0130TC	Top Cap for 30" w/Frame	49.00	54.00
TF-0136TC	Top Cap for 36" w/Frame	57.00	63.00
TF-0142TC	Top Cap for 42" w/Frame	63.00	69.00

Fabric Panels

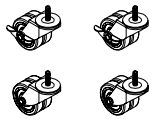
ITEM #	DESCRIPTION	ZONE I	ZONE II
TF-012460FP	Fabric Covered Panels for 24"w x 60"h Frame	235.00	259.00
TF-013060FP	Fabric Covered Panels for 30"w x 60"h Frame	245.00	270.00
TF-013660FP	Fabric Covered Panels for 36"w x 60"h Frame	260.00	286.00
TF-014260FP	Fabric Covered Panels for 42"w x 60"h Frame	270.00	297.00
TF-012472FP	Fabric Covered Panels for 24"w x 72"h Frame	245.00	270.00
TF-013072FP	Fabric Covered Panels for 30"w x 72"h Frame	255.00	281.00
TF-013672FP	Fabric Covered Panels for 36"w x 72"h Frame	270.00	297.00
TF-014272FP	Fabric Covered Panels for 42"w x 72"h Frame	280.00	308.00
TF-012484FP	Fabric Covered Panels for 24"w x 84"h Frame	255.00	281.00
TF-013084FP	Fabric Covered Panels for 30"w x 84"h Frame	265.00	281.00
TF-013684FP	Fabric Covered Panels for 36"w x 84"h Frame	275.00	297.00
TF-014284FP	Fabric Covered Panels for 42"w x 84"h Frame	285.00	308.00



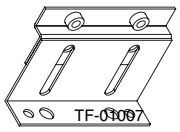
Fabric Covered Steel Panels with PVC Edging for wire management. Includes Top and Bottom Section. Part includes signle face of panel. Two units need to be ordered for double sided set-up. Non-Tackable / Non-Acoustic

Casters

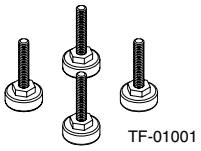
ITEM #	DESCRIPTION	H	EST. LBS.	ZONE I	ZONE II
TF-01001	Leveling Glides (set of 4)**	–	1	9.00	10.00
TF-01002*	Casters, 4/set (2 locking, 2 non)*	–	6	150.00	165.00
TF-01002N*	Non-Locking Caster (pair)*	–	3	56.00	62.00
TF-01002L*	Locking Caster (pair)*	–	3	95.00	105.00
TF-01002-6*	Casters 6/set (2 locking, 4 non-locking)*	–	9	206.00	227.00
0TF-01007	Floor Mounting Bracket (pair)	–	1	144.00	158.00



TF-01002



TF-01007



TF-01001

*Includes Connector Plate for footing.
**Footings come with leveling glides standard

Worksurfaces

Support brackets included.

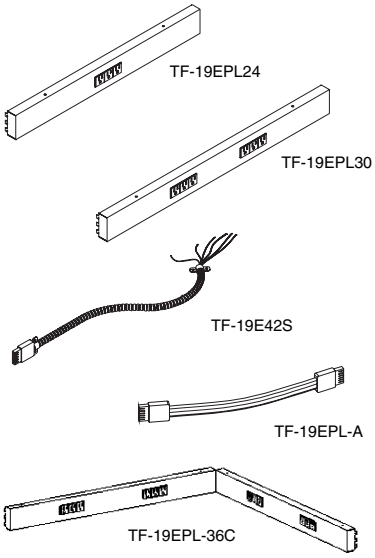
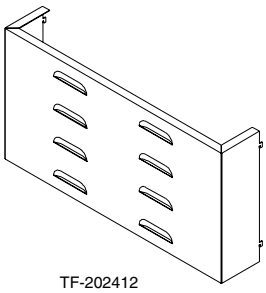
TF-19EPL42*	Powerlink Electrical Module 42"	42"	1-1/4"	3-5/8"	7	289.00	318.00



Note: Corner unit includes (1) righthand (1) lefthand module and (1) add-on connection.
*Power Pole is only available in putty color.

Rear Modesty Panel

ITEM #	DESCRIPTION	W	D	H	EST. LBS.	ZONE I	ZONE II
TF-202406	Rear Modesty Panel 24x6	24"	4"	6"	4	44.00	48.00
TF-202412	Rear Modesty Panel 24x12	24"	4"	12"	8	59.00	65.00
TF-202424	Rear Modesty Panel 24x24	24"	4"	24"	16	77.00	85.00
TF-203006	Rear Modesty Panel 30x6	30"	4"	6"	5	49.00	54.00
TF-203012	Rear Modesty Panel 30x12	30"	4"	12"	10	65.00	72.00
TF-203024	Rear Modesty Panel 30x24	30"	4"	24"	20	85.00	94.00
TF-203606	Rear Modesty Panel 36x6	36"	4"	6"	6	56.00	62.00
TF-203612	Rear Modesty Panel 36x12	36"	4"	12"	12	71.00	78.00
TF-203624	Rear Modesty Panel 36x24	36"	4"	24"	24	95.00	105.00
TF-204206	Rear Modesty Panel 42x6	42"	4"	6"	7	62.00	68.00
TF-204212	Rear Modesty Panel 42x12	42"	4"	12"	14	78.00	86.00
TF-204224	Rear Modesty Panel 42x24	42"	4"	24"	28	103.00	113.00

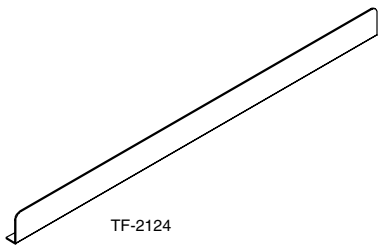


Note: To calculate correct number of modesty panels, subtract 6" from height of upright (ex.) 72" upright can use up to 66" of modesty panels.

Shelf Lip

Provides 3/4" edge at front or rear of shelf.

ITEM #	DESCRIPTION	W	D	H	EST. LBS.	ZONE I	ZONE II
TF-2124	24" Shelf Lip with Hardware	24"	3/4"	3/4"	1	16.00	18.00
TF-2130	30" Shelf Lip with Hardware	30"	3/4"	3/4"	1	18.00	20.00
TF-2136	36" Shelf Lip with Hardware	36"	3/4"	3/4"	1	20.00	22.00
TF-2142	42" Shelf Lip with Hardware	42"	3/4"	3/4"	1	22.00	24.00
TF-2148	48" Shelf Lip with Hardware	48"	3/4"	3/4"	1	25.00	28.00



Note: These parts can be added to flat, adjustable or monitor shelves.

Specifier Sheet

This sheet was created to assist you in designing the technical furniture unit that is best suited for your individual application. Simply fill out the following questionnaire and submit it to your Datum Dealer. The information you provide will enable Datum to create a "TFS" unit specifically for you. The unit will be shown in a GIZA layout showing a 3-D image.

Step 1) Draw the dimensions of the room where the "TFS" will be used, on the graph paper supplied on the back of this form. The graph paper is set up on 1/4" = 1' grid, the grid can be used 1/8" = 1'.

Step 2) Note the size of your computers, terminals, keyboards and accessories, in the spaces provided below.

Step 3) Fax the specifier sheet to Datum at 717-764-6656.

Specifier Sheet, Continued

There are some additional questions that need to be answered before an accurate layout can be made. Please complete the following:

What is your ceiling height? _____

Are units to be placed against a wall? _____

Will units be single sided or double sided? _____

Is a work surface required? _____

Are power strips/bars required? _____

Will someone be sitting at the unit? _____

Are any storage areas required (pedestals, flipper door cabinets)? _____

Does the system need casters? _____

Is a corner unit required? _____

Are there any special conditions or requirements that Datum should know about prior to designing the system?

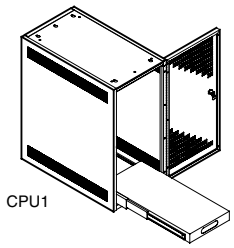
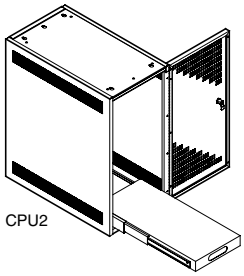
CPU Locker

ITEM #	DESCRIPTION	W	D	H	EST. LBS.	ZONE I	ZONE II
CPU1	Small CPU Locker (Hanging)	8"	16"	18"	25	226.00	249.00
CPU2	Large CPU Locker (Hanging)	12"	22"	24"	35	252.00	277.00
CPU2-M	Large CPU Locker (Mobile)	12"	22"	27-5/8"	45	315.00	347.00

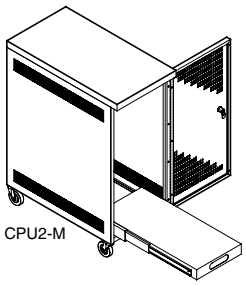
CPU1 can house a CPU with dimensions as large as 5"W x 14"D x 13-1/2"H
CPU2 and CPU2-M can house a CPU with dimensions as large as 9"W x 20"D x 19-1/2"H



CPU1



CPU2



CPU2-M

Gem Lock standard on all CPU Lockers.
Standard CPU Lockers (CPU1, CPU2, and CPU2-M) are keyed alike with a Right-Hand Hinge.
For CPU lockers keyed randomly add the Suffix "D" to the part number. EXAMPLE: (CPU1-D). There is a $5.00 upcharge to the list price for each unit keyed randomly.
To order units with a Left-Hand Hinge, add suffix "L" to part number. EXAMPLE: CPU2-L.
To order units that are both Left-Hand Hinge and keyed randomly add both suffixes "L" & "D". EXAMPLE: CPU2-M-LD.

LapTop Cart

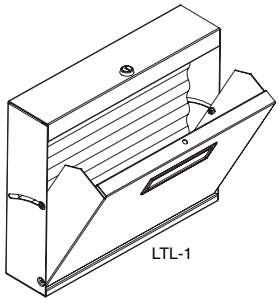
ITEM #	DESCRIPTION	W	D	H	EST. LBS.	ZONE I	ZONE II
LCT-24	LapTop Cart, Secures Up To 24 LapTops (Does not include Power Bars)	46-3/4"	25-3/4"	48-1/4"	240	1,495.00	1,645.00
LTC-24P	LapTop Cart, Charges & Secures Up To 24 LapTops (2 Power Bars included)	46-3/4"	25-3/4"	48-1/4"	246	1,755.00	1,931.00
LTC-PB12	LapTop Cart Power Bar, 12 Outlets, 15' Cord				3	130.00	143.00

LCT-24

LapTop Locker

ITEM #	DESCRIPTION	W	D	H	EST. LBS.	ZONE I	ZONE II
LTL-1	LapTop Locker	16"	13-13/16"	3-1/2"	16	117.00	129.00

Standard LapTop Lockers (LTL-1) are keyed randomly.
Orders of 10 units or less keyed alike, add the suffix "A". **EXAMPLE: LTL-1-A**
Orders of more than 10 units keyed alike will extend lead to 8-10 weeks.

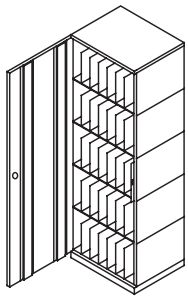


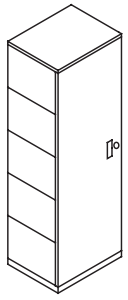
LTL-1

LapTop Tower

ITEM #	DESCRIPTION	W	D	H	EST. LBS.	ZONE I	ZONE II
LTV-1	LapTop Tower	24"	19-1/4"	73-1/2"	225	1,163.00	1,279.00

Units comes standard with Combination Lock (5 available combinations per lock).
Add suffix "L" for Left-Hand Hinged unit. EXAMPLE: LTV-1L.
Add suffix "R" for Right-Hand Hinged unit. EXAMPLE: LTV-1R.
Unit sold with dividers for (35) compartments (17"D x 13-1/2"H x 3-3/4"H).
Dividers Adjustable on 3/4" centers.





Sort Modules

Sort module exterior and vertical dividers constructed of 3/4 inch 45-50 lb. substrate (particle board) with thermal fused laminate finish and matching or complimentary 3/8" PVC on front edges.

Shelves and shelf standards constructed of steel. Shelves adjust in one-inch increments and have 90 degree 1/2" label lip. All steel parts are thoroughly cleaned using a three-stage iron phosphate washer and then coated with an Epoxy-Hybrid powder coat finish using a state-of-the-art electrostatic paint system. Powder coating provides a superior, attractive, uniform finish that is more durable, scratch and corrosion resistant, and environmentally friendly than liquid paint.

Open Back Modules

All Mail Master sort modules are available with open backs for pass-through sorting. Just add "OB" suffix to model number. Open back models feature 1/2" label area on front and back shelf edge. Plexiglas doors are an optional accessory for open back modules, see page 133.

Stacking Modules

Any Mail Master sort module may be stacked with module of equal width and depth. When ordering, specify which modules will be stacked. Factory will pre-drill and provide screws for secure stacking.

Wall Mounted Modules

Any Mail Master sort module may be factory-modified for wall mounting. Add 25% to list price for modification. Factory provides steel mounting brackets which must be field-installed to mount at wall studs.

Letter Size Sort Modules

Net Opening Size Each Sort: 11-1/4"W x 11-1/4"D

Letter size modules include one shelf every three inches, providing 2-1/2" clearance between shelves. Shelves adjust in 1" increments. Each shelf has 1/2" label area with centered cut-out.

-To increase the number of sorts, order extra shelves.
- To increase the height of each opening, deduct shelves.
- For shelf pricing, see page 134.
- For more sort module accessories, see page 133.
- For finishing options, see page 126.

Net I.D. Height Each Section: 30"

Legal Size Sort Modules

Net Opening Size Each Sort: 11-1/4"W x 15-1/4"D

Legal size modules include one shelf every three inches, providing 2-1/2" clearance between shelves. Shelves adjust in 1" increments. Each shelf has 1/2" label area with centered cut-out.

-To increase the number of sorts, order extra shelves.

- To increase the height of each opening, deduct shelves.
- For shelf pricing, see page 134.
- For more sort module accessories, see page 133.
- For finishing options, see page 126.

Tables

Materials

Table Bases: Heavy gauge steel with an Epoxy-Hybrid powder coat finish.
Work Surface: 1.125" industrial grade 45-50 pound substrate. Finished in stain and mar-resistant Thermally-fused Laminate with 3 mm PVC edging. All work surfaces include PVC edging.

Adjustable Height Tables

CTA Series	30" or 36" deep, 22" long side and back panels.
CMA Series	24" deep, 22" long side and back panels.
STA Series	30" or 36" deep, 16" long side and back panels.
MTA Series	24" deep, 16" long side and back panels.

All are available as open table, table with bottom shelf only, or table with bottom shelf and sliding doors. Intermediate shelf available for CTA and CMA Series, see page 142.

Table legs are 1-1/4" square steel tubing coated with an Epoxy-Hybrid powder coat finish using a state-of-the-art electrostatic paint system. Height adjustable from 28" to 36" in one-inch increments.

Fixed Height Tables

BC and MBC Series Base Cabinet
Flush to floor with leveling glides and 3" toe space at front of cabinet.
Includes bottom shelf and sliding doors.
Available in 30" or 36" high models.
BC Series is 30" or 36" deep.
MBC Series is 24" deep.
Intermediate shelf also available, see page 142.

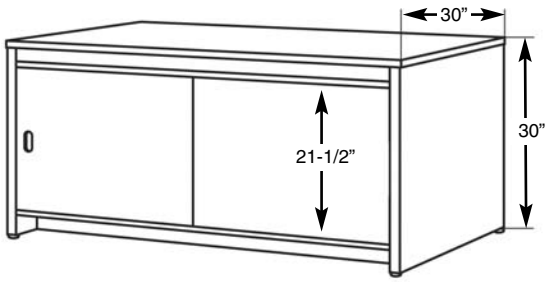
WT Tables 30" deep, 29-1/2" fixed height with 6" high, powder-coated 20 gauge steel apron. Table legs are 1-1/4" square steel tubing coated with an Epoxy-Hybrid powder coat finish using a state-of-the-art electrostatic paint system.

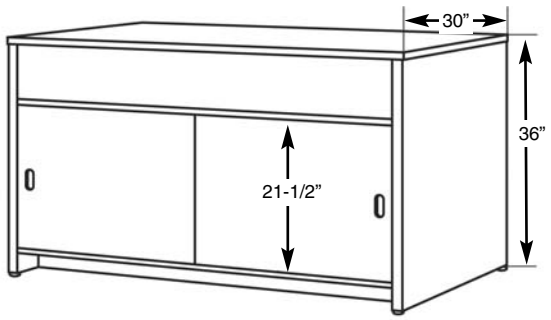
WTM Tables 24" deep, 29-1/2" fixed height with 6" high, powder-coated 20 gauge steel apron. Table legs are 1-1/4" square steel tubing coated with an Epoxy-Hybrid powder coat finish using a state-of-the-art electrostatic paint system.

36" Deep Tables

Table base is 30" deep.
Tabletop is 36" deep with 3" overhang in front and back.

Base Cabinet Tables





BC Series 30" Deep

Base Cabinet (BC) tables are modular tables with the storage capacity and appearance of built in cabinets. All BC tables (except BC34 and BC37 angled corner tables) include a bottom shelf and doors. Intermediate shelf also available, see page 142.

Tabletop Corner Filler

In L or U-shaped configurations, Tabletop Corner Fillers are an economical alternative to fill corner tables. Before choosing this option, take into consideration that layout may not be re-configuredat a later date, because the corner filler must be attached to adjacent tables for support.

Select paint finish for front filler panel.
Select laminate finish for tabletop.

Table Shelf Storage Dividers

Vertical dividers for bottom shelf of any Mail Master table may be ordered in any quantity. The factory will install the dividers equally spaced across the width of the shelf, or you may specify spacing and placement of dividers to fit your requirements. Ideal for storage of courier packs, large envelopes or flat boxes.

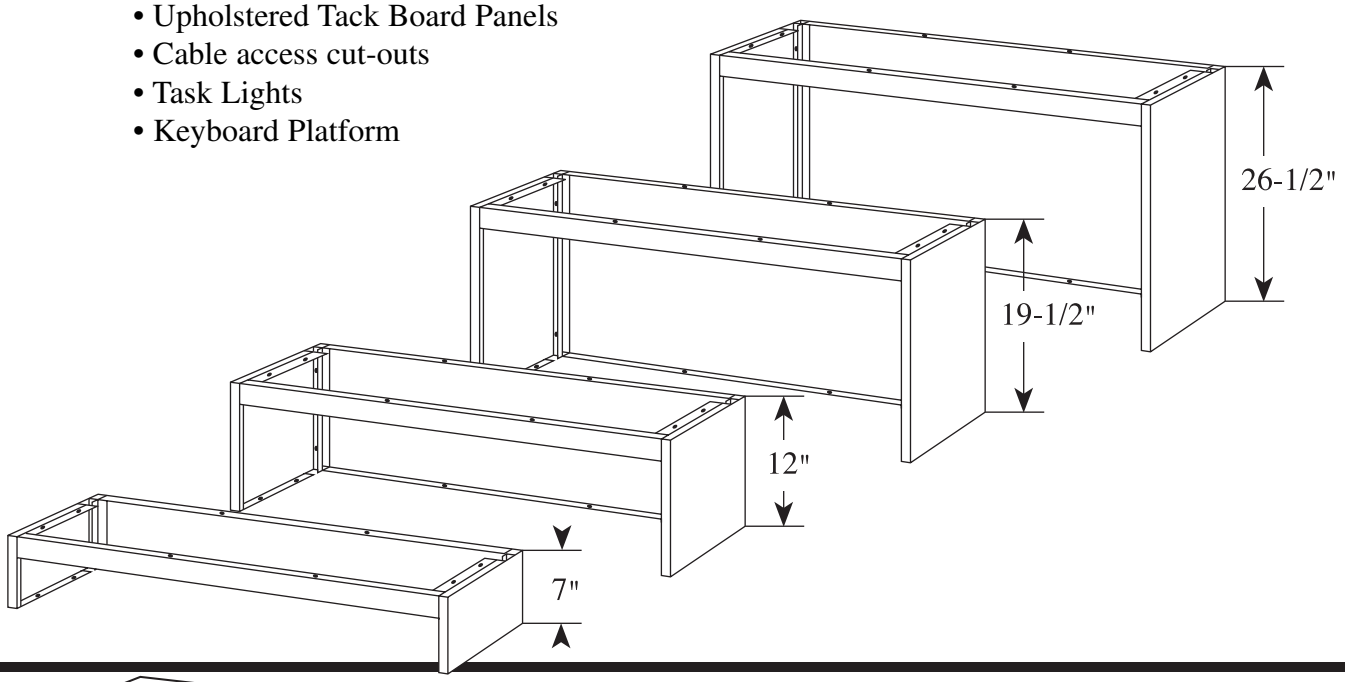
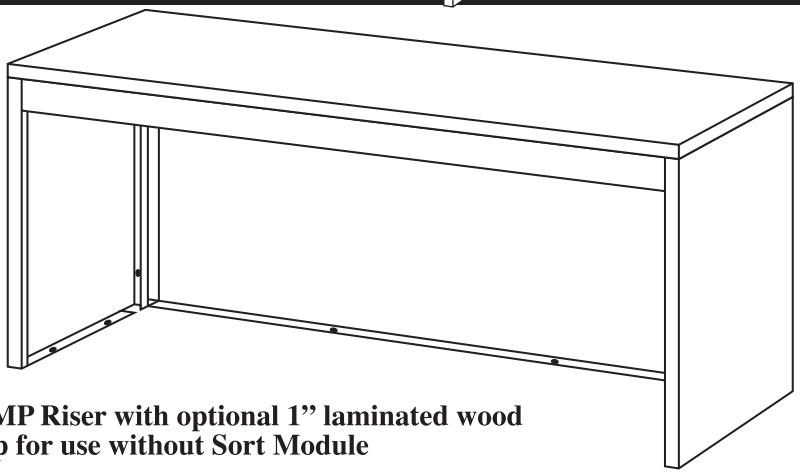
RMP Risers

RMP Risers are constructed of formed steel with 2 side panels, a back panel and a 2” front channel, all finished in baked enamel. These Risers attach to table with screws provided. Risers are available in any of four heights. Clearance is 2-1/4” less than overall height. Models up to 75” long feature clear span without intermediate supports. Interior clearance is 1-1/2” less than overall width.

Options:
- 1” Laminated wood top for use with without Sort Module
- Upholstered Tack Board Panels
- Cable access cut-outs
- Task Lights
- Keyboard Platform





RMP Riser with optional 1” laminated wood top for use without Sort Module

NOTE: All RMP Risers require Sort Module or 1" Laminated Top Surface

RSR Riser with finished top

RSR Risers are constructed of 3/4" laminated wood. Exterior side panels and front edges are laminated to match sort module exterior. Interior is laminated to match sort module interior. Clearance is 3/4" less than overall height. Models over 48" wide have intermediate support. All RSR Risers are 12" high.

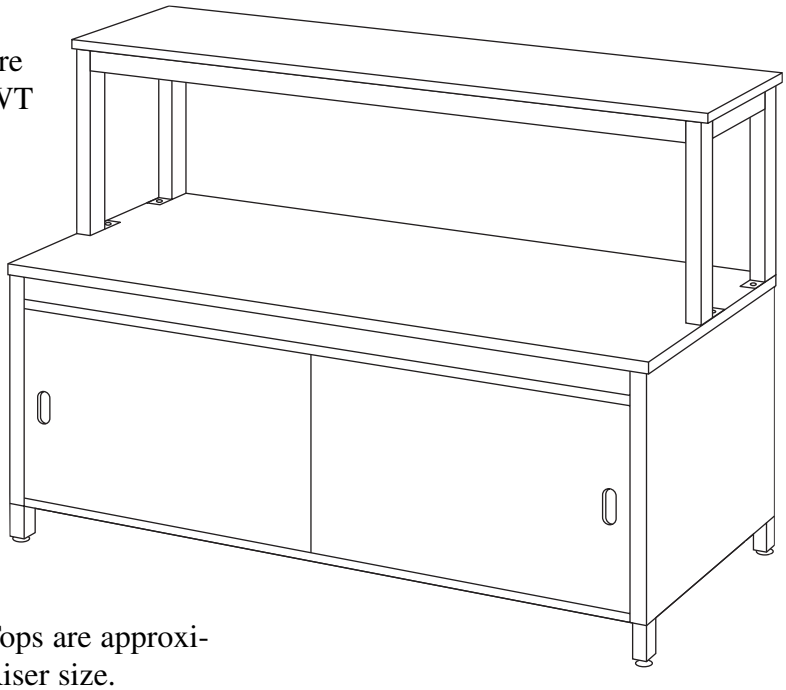
Models over 48" wide have intermediate support.

RWT Risers

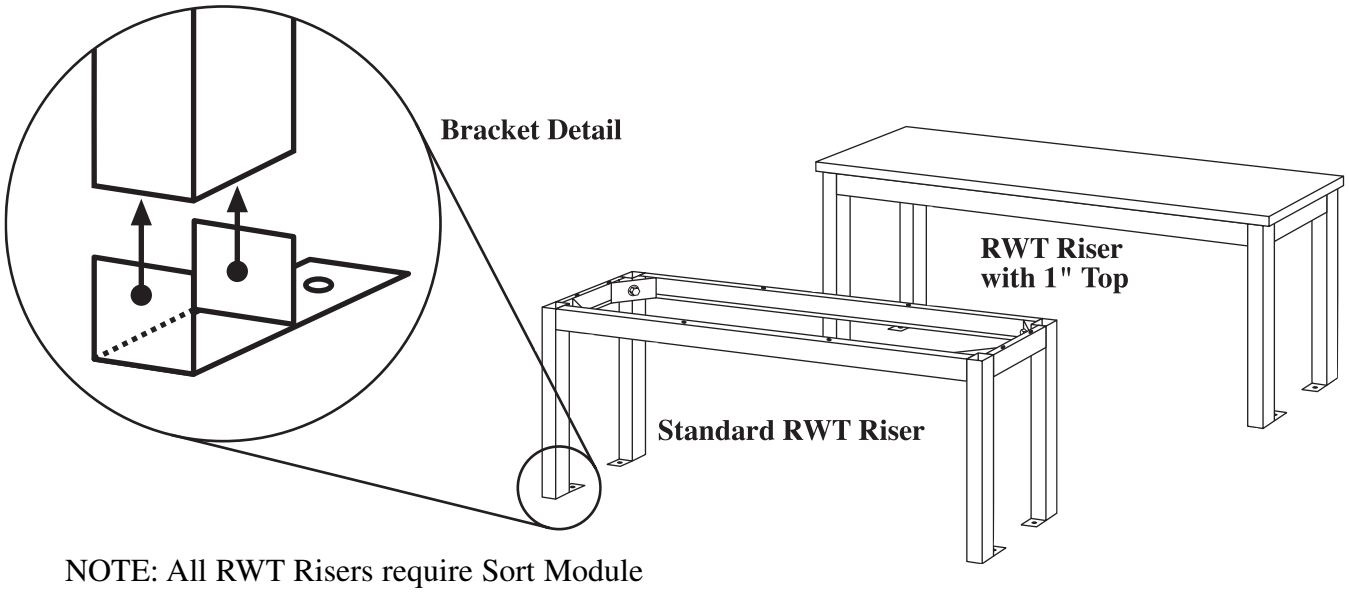
RWT Risers consist of a 2 inch rolled steel welded frame with baked enamel finish and four 1-1/8" square steel chrome-plated legs. Sides and back are no enclosed, allowing pass-through. RWT Risers are often used with open back sort modules. All RWT Risers are 18" high and clearance is 2-1/4" less than overall height, or 3-1/4" less than overall height when ordered with optional top.



Models up to 75" wide feature clear span 2-1/4" less than overall width, without intermediate supports.

Options:
- 1" Laminated wood top for use without Sort Module
- Task Lights
- Keyboard Platform

Note: Compatible Sort Modules and Optional Tops are approximately 1/2" wider and 1/2" deeper than RWT Riser size.



NOTE: All RWT Risers require Sort Module or 1" Laminated Top Surface

							Add for 1" Laminated Top Surface

Mail Master Notes

Work Station #1

CTA Console Tables feature concealed storage area under tables in this step-saving layout. Risers under three sort modules may be placed to left or right side of station to fit incoming or outgoing functions. Specify riser placement when ordering. Clearance under risers is 17". Sort shelves adjust in 1 inch increments. Overall height adjusts from 74" to 82".
Specify paint color for table bases, risers and sort module shelves.
Specify laminate color for tabletops and sort module exteriors.
Provides 194 openings.

				Floor Space Required		I.D. Each Slot

Overhead Storage Modules

Overhead modules include two locking retractable doors with fixed center divider. Each size is available complete with adjustable interior shelving as shown, or may be purchased with two empty interior compartments. RMP style riser is 19-1/2" high overall and provides 17" clearance. Upholstered tackboard panels are included, but not shown here.

For replacement vertical dividers, order model #D13. For replacement horizontal shelves, order model #LS16.

Cluster Specifications

GENERAL INFORMATION

Product Description: Datum's Satellite Cluster Workstations are designed to make the most of your available workspace without compromising worker comfort. Satellite Cluster Workstations can be arranged in a variety of configurations. You can choose from basic Apollo or the more spacious Eclipse line with executive, professional and administrative support designs.

SPECIFICATIONS

Double Wall Acoustical Privacy Panels: Panels are Class A fire-rated with a NRC rating of .85 per individual panel. The unique dual-panel construction features a two-foil septum between panels for reduced noise transmission. Welded steel construction offers durability. All panels are easily removable and replaceable.

Double Wall Modesty Panel: Panels are designed using a unique double wall concept. Frame is constructed of 16 gauge cold rolled steel welded for strength and durability. Panels are available in either a fabric-covered acoustical panel or a laminated panel.

Work Surface: Work surfaces are constructed of 45 lb. density and 1-1/8" core industrial-grade particleboard. All tops are covered with high-pressure (.050) laminate and finished with durable PVC Bull nose edging. Satellite 4 and 5 work surfaces feature a three-piece sectional top for future adjustability. An optional one-piece work surface is available. Satellite 6 Clusters offer a one-piece work surface as standard. Tops are backed using a .020 moisture resistant backing sheet to prevent warping or twisting of the work surface. The work surface is attached to the acoustical panel with heavy gauge steel brackets. There are no knee-banging obstructions under the work surface to interfere with the operator's freedom of movement.

Command Core Access Panels: Each position of the Satellite features a large, removable access panel in order to allow access to cables, should the need arise. The access panels can easily be removed without tools. A 5" cable slot is provided at each Satellite position above the access panel.

Panel-Hung Accessories: All panel-hung accessories have Datum's exclusive anti-dislodgement lock that prevents accidental dislodgement. All overhead storage compartments and open shelves are designed to accept movable dividers. One divider is provided free with each accessory.

Pedestals: All drawers feature Accuride® full-extension suspension slides rated at 137 pounds per pair. All drawers have been designed so that accidental dislodgement will not occur. Drawers do not require special tools for removal. File drawers are designed to hold letter and legal-sized hanging folders. Mobile pedestals feature a fifth wheel on the file drawer to prevent tipping. Pedestals also feature standard gang locks.

Cable Management: Two cable troughs are provided below the work surface for channeling wires to the command core, preventing wires from dangling below the work surface. Each position of the Satellite has 3 conveniently located cable ports that channel wires to the command core. Electrical connections are located directly below the work surface where they cannot be kicked by the operator or dislodged by cleaning personnel. A hardwire electrical system is available with provisions for computer connections.

Finish: All metal surfaces are finished with durable powder coat paint. Powder coating provides a hard finish with superior performance qualities. It has excellent abrasion, impact, corrosion, stain and chemical resistance. Powder coating is environmentally safe, producing no volatile emissions or hazardous waste during the application process.

FOR ADDITIONAL INFORMATION ON ORDERING, TERMS AND CONDITIONS, PRICING AND SHIPPING, REFER TO PAGE i.

POWDER COATED TOUGH™

Eclipse Four

Satellite Eclipse Four Clusters are arranged with 1, 2, 3, or 4 stations per cluster. Each station has a three piece work surface with over 2800 square inches of usable work area. ALL PANELS ARE ACOUSTICAL and have a Class A fire rating. Panels can be covered in two fabric grades, add a P suffix to the catalog number to denote a premium fabric. Example 404-66ECP. Each station includes 3 cable grommets, 2 cable raceways and 1 core access slot as well as a full size access panel. All support brackets, hardware and leveling guides are included. Shared work areas must be ordered with the cluster they cannot be field installed.

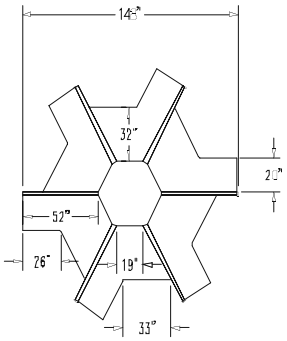
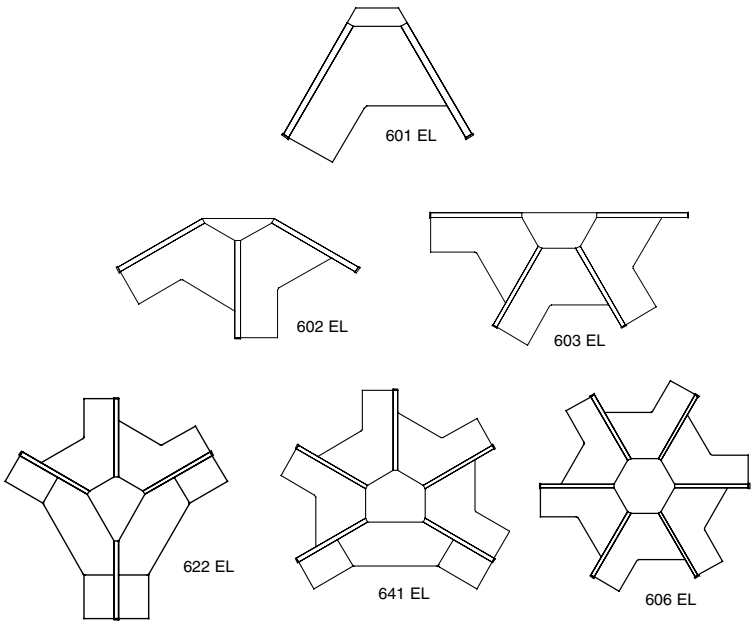
NOTE: Left Hand Wings are standard on all work stations. If Right Hand or Mixed Wings are needed it must be noted on order.





Eclipse Six V

Satellite Eclipse V-Top Six Clusters are arranged with 1, 2, 3, 4, 5 or 6 stations per cluster. Each station has a one piece work surface with over 1900 square inches of useable work area. ALL PANELS ARE ACOUSTICAL and have a Class A firerating. Panels can be covered in two fabric grades, add a P suffix to the catalog number to denote a premium fabric. Example 606-66EVP. Each station includes 3 cable grommets, 2 cable raceways and 1 core access slot as well as a full size access panel. All support brackets, hardware and leveling guides are included. Shared work areas must be ordered with cluster, they cannot be field installed.

Apollo Four

Apollo Four Clusters are arranged with 1, 2 or 4 stations per cluster. Each station has a one piece work surface with over 2000 square inches of usable work surface. ALL, PANELS ARE ACOUSTICAL and have a Class A fire rating. Panels can be covered in two fabric grades, add a P suffix to denote a premium fabric. Example 440-66P. Each station of the cluster includes 3 cable grommets, 2 cable raceways and 1 core access slot as well as a full size access panel. All support brackets, hardware and leveling glides are included. Shared work areas must be ordered with cluster, they cannot be field installed.

Overhead Shelves

Overhead shelves are available in four standard widths as well as widths to accommodate center mounting in all cluster configurations. Low profile shelves have 8' high end supports and are only available in letter depth. Regular shelves have 16" high end supports and are available in letter and legal depths. Dividers are available for all shelves. Shelves have been designed to accommodate task lighting.
Please note the following when ordering overhead accessories.
"A" overhead accessories are for Apollo clusters. 24" wide.
"B" overhead accessories are for Eclipse clusters side mount. 30" wide.
"C" overhead accessories are for 36"W programmers tables.
"D" overhead accessories are for Super Eclipse clusters. 42" wide.
"E" overhead accessories are for all Eclipse clusters center mount.

Overhead Cabinets

Overhead cabinets are available in four standard widths as well as widths to accommodate center mounting in all cluster configurations. Locks are standard on all overhead cabinets. Cabinets can be ordered without locks by adding the suffix NL to the model number. Example 4600-206BNL. When ordering cabinets without locks deduct $10.00 from the prices shown. Dividers are available for all cabinets. Cabinets have been designed to accommodate task lighting. Cabinets can be ordered without doors by adding the suffix ND to the model number. Example 4600 206AND. When ordering without doors deduct $50 from the price shown.
Please note the following when ordering overhead accessories.
"A" overhead accessories are for Apollo clusters. 24" wide.
"B" overhead accessories are for Eclipse clusters side mount. 30" wide.
"C" overhead accessories are for 36"W programmers tables.
"D" overhead accessories are for Super Eclipse clusters. 42" wide.
"E" overhead accessories are for all Eclipse clusters center mount.

Keyboard and Work Surface Option

A wide selection of keyboard options are available for mounting on all cluster configurations. Models 4600-5, 5A, 10, and 10A have a keyboard platform which matches the work surface laminate. Model number 4600-12 includes a wrist support and is only available in black. Models 4600-15 and 15A are painted to match the trim color and include a built in wrist support. Model numbers 4600-l 6 and 17 are only available in putty. All keyboards with an A suffix as well as model number 4600-12 can be used on Apollo clusters, please contact factory if any other keyboard is required on an Apollo cluster.
Extended work surfaces are available in 3 depths and eight widths. To order a 20" D work surface change depth of work surface. Example: 4600-1222WS to 4600-1220WS. Price remains the same. Pricing includes all mounting hardware.

Work Surface

Pedestals

All pedestals include a gang lock with full extension bail bearing suspensions on every drawer. Pedestals are available with a wide selection of drawer combinations; pencil drawer (3"), box drawers (6"), utility drawers (9"), file drawers (12"), and an EDP drawer (15") are available to select from. All pedestals that have a box drawer will include a sliding pencil tray. Pedestals can be either hanging (H), mobile (M), or free standing (FS). Mobile pedestals include five casters, 2 with brake and 3 swivel. Freestanding pedestals include leveling glides and are designed to support the work surface. Laminated wood tops are available for mobile pedestals, to order use the suffix T (46106MT) and add $55.00 to the list price. For pedestals without locks add the suffix NL to the model number (46109HNL) and deduct $20.00 from the list price. Locks are random keyed as standard. Pedestals are available in short depth for use on clusters with 18" returns please add the suffix SD when ordering.

Electrical

All electrical components and accessories are UL listed or tested to UL standards by an independent testing laboratory. Task lights include the fluorescent lamp and have a 3 prong grounded plug. When ordering task lights to be used in the city of Chicago add the suffix FP (fused plug) to the model number and add $58.00 to the list price. Example 4600-80BFP. Task lights include hardware for mounting to overhead accessories. Please indicate if lights are to be mounted to a legal size overhead so the proper connecting hardware can be supplied. Power Link is a seven wire system with three 20 amp circuits, all receptacles are included in the list price. For assistance in electrical specifications please contact customer service.

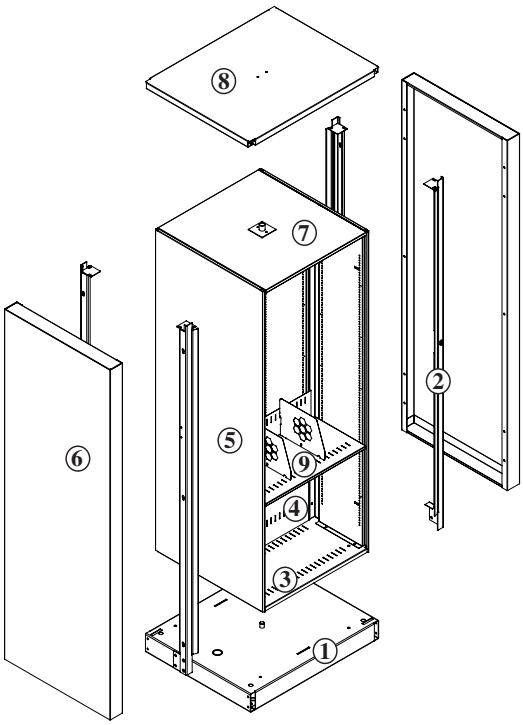
Ez2® General Information & Specifications



1 **BASE:** The Ez2® base is formed out of 13 gauge steel with 13 gauge steel-formed U-Channel reinforcements. These 13 gauge steel channels have a 4" wide x 3-1/2" deep cross-section and run the full length and width of the base. These channels are mig welded to the base forming a rigid structure capable of supporting the weight of the cabinet. At each corner, a welded steel 11 gauge gusset adds strength and rigidity to the base. Four adjustable leveling feet allow the base to be leveled from the top of the base. The base mechanism provides 90° indexing of the rotary file cabinet. The base does not require the use of a foot pedal to index the cabinet.

2 **UPRIGHTS AND LOCK:** Each Ez2® unit has (4) upright posts with dual durometer PVC closing strips. The posts are made from 11 gauge steel and are bolted directly to the unit base with (2) 1/4" – 20 flat head bolts per post. A lock assembly and locking rod is supplied with each unit and is conveniently located on the right front post. All cabinets are random-keyed. Lock bar is formed from 3/8" diameter steel rod for maximum durability. Locks have field removable core for easy key changes. Locks can be installed on both sides of unit. Unit can be locked in the open or closed position.

3 **ROTARY BOTTOM:** The Ez2® rotary bottom rides on top of the base and is fully supported by 5/8" diameter, hardened steel ball bearings. The letter size unit has a 19-1/4" diameter bearing cage with 22 each, 5/8" diameter ball bearings. The legal size unit has a 24" diameter bearing cage with 44 each 5/8" diameter ball bearings. The rotor bottom pivots on a 3/4" diameter pin and a mating steel brushing, that is mig welded to the underside of the rotor shelf. The rotor bottom is constructed by mig welding and spot welding an 11 gauge steel bottom support plate to an 18 gauge steel top. Two (2) each 14 gauge steel reinforcement angles are sandwiched between and support the full length of the top and bottom plates. The 90° index indentation is formed on the bottom support plate. Slots in 1" centers are punched on top of the rotary bottom to accept dividers.

4 **CENTER PANELS:** A structural center panel is provided with each rotary file unit. The 13-1/2" high, 16 gauge steel panel is bolted to the inner flange of the doors for outstanding cabinet strength.

5 **ROTARY SIDE PANELS:** Each 3-piece rotary side panel is formed for maximum strength and rigidity. The outer panel is formed from 20 gauge steel and is beveled on each leading edge for superior post clearance. The 18 gauge inner panel is spot welded to the outer panel for high load carrying capacity. The inner door panel has holes on 1/2" center to support and provide vertical height adjustment of accessories.

6 **END PANELS:** The end panels complete the unit and are formed from 18 gauge cold rolled steel. The end panel bolts directly to the unit posts and converts an adder unit to a starter unit. The end panels are connected to the unit with a keyhole system that allows panels to be installed by 1 person.

7 **ROTARY TOP**: The 20 gauge steel rotary top is formed for strength and is bolted to the side panels. The rotary top has a 3/4" diameter welded pivot pin.

8 **CANOPY TOP:** Formed and welded for rigidity and strength, the 18 gauge canopy top is mechanically fastened to each post. The 1" I.D. steel bushing that mates with the rotary top pivot pin is mig welded to an 11 gauge steel plate. The bushing plate is spot welded to the center of the canopy top.

9 **SHELF:** Shelves are formed of 18 gauge steel with a 5-3/8" high integral back stop. Shelf is slotted on 1" centers to accept file dividers. Shelf is fastened in place with four self-tapping screws and is adjustable on 1/2" centers.

10 **FINISH:** All steel parts are thoroughly cleaned using a three-stage iron phosphate washer and then coated with an Epoxy-Hybrid powder coat finish using a state-of-the-art electrostatic paint system. Powder coating provides a superior, attractive, uniform finish that is more durable, scratch and corrosion resistant, and environmentally friendly than liquid paint.

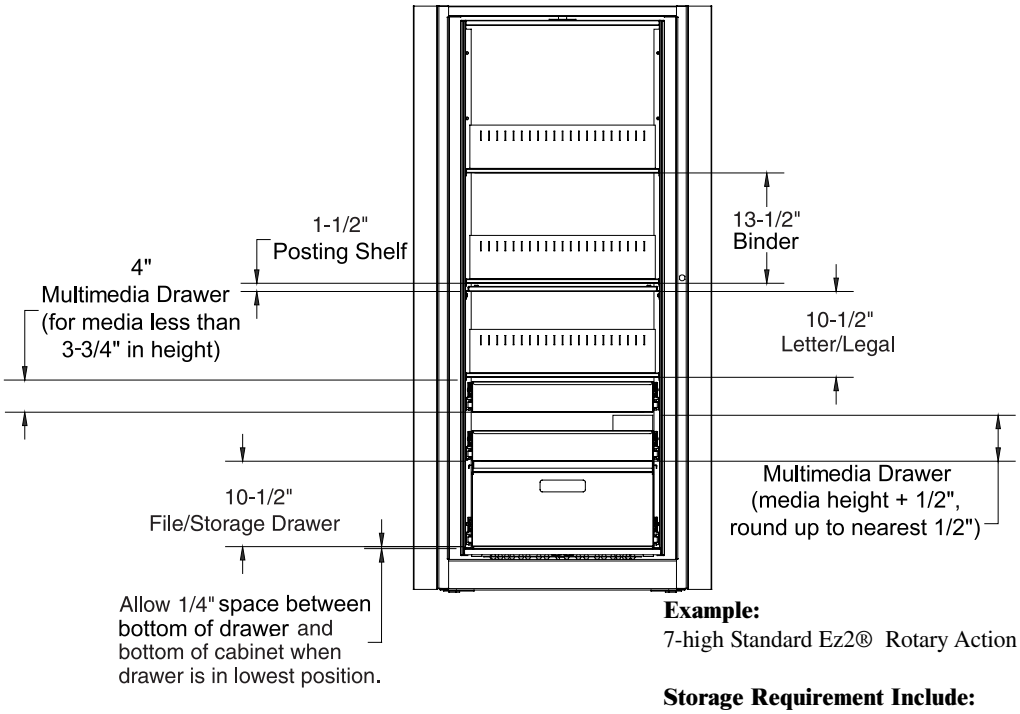
STANDARD Ez2® SPACING



For your convenience, the charts shown represent both typical storage applications and standard spacing requirements. Determine allowable storage requirements and choose your required height Ez2® Rotary Action File as found on page 196. Refer to the adjacent Clear Opening Chart to determine allowable inside clear height. Subtract listed shelf/drawer height to determine allowable number of shelves and/or drawers. Note: Mixed media can be specified on all Ez2® Rotary Action Files with Pull-out Drawers limited to the first five levels only.

Example:
7-high Standard Ez2® Rotary Action File with an internal clear height of 75.5"

Storage Requirement Include:

(3) Pull-out File Drawers (10-1/2" H x 3). . . . . -31.5"
(1) Multimedia drawer with CD's (calculate media height (5-1/2" H) plus 1/2" (round-up to nearest 1/2") . . . . . -6.0"
(1) Fixed shelf for Letter Size Folders (10-1/2" H). . . . . -10.5"
(2) Fixed shelf for Binders (13-1/2" H). . . . . -27.0"
Remaining Vertical Space: 0.5"

SPACING CHART FOR LETTER AND LEGAL SHELVES

Above chart reflects standard drawer configurations only. Refer to Standard Shelf Spacing chart for letter or legal depth shelves.
All drawers are adjustable on 1/2" increments.
*Drawer height is 10" high. Standard spacing for File/Storage drawers allows for 1/2" clearance between drawers for top-tab requirements.
**Drawer height is 3-3/4" high. Refer to the below chart for additional drawer spacing options based on your specific media height requirements.

Assembled Preconfigured Letter & Legal Depth Units

All Preconfigured Units include shelves placed on 10-1/2" centers for 10" clear vertical height. All shelves are adjustable on 1/2" centers, refer to Standard Shelf Spacing Chart found on page 192 for more information. Standard shelf spacing allows for the addition of pull-out posting shelf (sold separately). See page 196 for posting shelf information.

2-OPENING

Includes 2 shelves per side – 1 fixed base shelf and 1 adjustable. Includes 8 adjustable file dividers.

Notes:

All units ship assembled unless otherwise specified

Add the suffix "KD" to the part number for unassembled cabinets. EXAMPLE: XLT-S3KD

All shelves are independent (excluding Base Shelf) and adjustable on 1/2" centers with 10" clear vertical height.

All shelves are punched on 1" centers to accept file dividers.

All units include 2 adjustable file dividers per shelf opening. See page 196 for additional pricing for file dividers.

All Starter units include End Panel Kit.

End panel Kit may be added onto adder unit to convert to a starter unit. See page 197 for end panel pricing.

Standard shelf spacing will allow for add-on posting shelf. See page 196 for posting shelf pricing and additional information.

Letter Shelf Capacity of 24 LFI.

Legal Shelf Capacity of 30 LFI.

Packaging and skid adds 5-1/2" to the overall height.

Component Parts – Basic Units & Accessories

All Basic Units include base shelf only. Additional shelves and/or File/Storage Drawers are available, refer to current page for more information. All shelves and File/Storage Drawers are adjustable on 1/2" centers, refer to Standard Shelf Spacing Chart found on page 192 for more information.

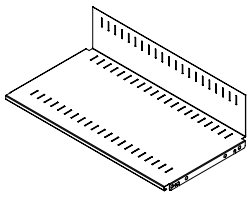
All units ship assembled unless otherwise specified.
Add the suffix "KD" to the part number EXAMPLE: XSLT-S4EKD for unassembled cabinets.
Refer to page 192 and 193 for standard shelf spacing requirements.
Letter and legal depth cannot be mixed on same unit.
See below for appropriate file dividers.
See below for appropriate shelf depth for above units.
Above cabinets include slotted base shelf only.
Packaging and skid adds 5-1/2" to the overall height.

SLOTTED SHELVES

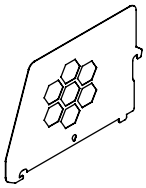
ITEM #	DESCRIPTION	EST. LBS.	ZONE I	ZONE II
XSLT	Slotted Letter Depth Shelf	6	41.00	45.00
XSLG	Slotted Legal Depth Shelf	11	48.00	53.00



Formed from 18 gauge steel shelf slotted on 1" centers for file dividers (sold separately).

FILE DIVIDERS

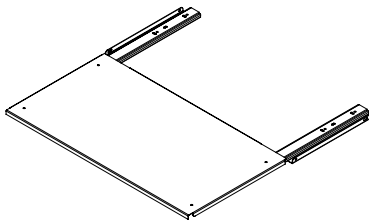
ITEM #	DESCRIPTION	EST. LBS.	ZONE I	ZONE II
FDL5	5 Pack of Letter/Legal File Dividers	5	14.00	15.00



Letter/Legal File Divider used to support media on shelf.

POSTING SHELVES

ITEM #	DESCRIPTION	EST. LBS.	ZONE I	ZONE II
XLTPOS	Letter Posting Shelf	10	165.00	182.00
XLGPOS	Legal Posting Shelf	12	168.00	185.00

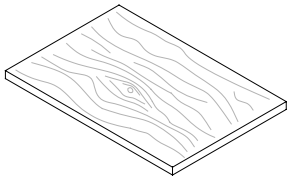


Full extension pull-out reference shelf to provide convenient worksurface. Available for units 5-8 levels high.
Typically installed between 3rd and 4th opening – will require 1-1/2" additional vertical clear opening.

LAMINATE TOP

ITEM #	DESCRIPTION	EST. LBS.	ZONE I	ZONE II
XLT-LS	Letter Laminate Top – Starter	15	169.00	186.00
XLT-LA	Letter Laminate Top – Adder	12	163.00	179.00
XLG-LS	Legal Laminate Top – Starter	20	197.00	217.00
XLG-LA	Legal Laminate Top – Adder	17	191.00	210.00

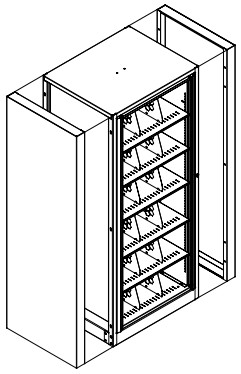
Choose from available standard laminate offering.



END PANEL KIT

ITEM #	DESCRIPTION	EST. LBS.	ZONE I	ZONE II
XLT-3E	3-High Letter End Panel Kit	40	225.00	248.00
XLT-4E	4-High Letter End Panel Kit	42	235.00	259.00
XLT-5E	5-High Letter End Panel Kit	57	245.00	270.00
XLT-6E	6-High Letter End Panel Kit	60	290.00	319.00
XLT-7E	7-High Letter End Panel Kit	74	323.00	355.00
XLT-8E	8-High Letter End Panel Kit	78	350.00	385.00
XLG-3E	3-High Legal End Panel Kit	54	241.00	265.00
XLG-4E	4-High Legal End Panel Kit	63	285.00	314.00
XLG-5E	5-High Legal End Panel Kit	70	308.00	339.00
XLG-6E	6-High Legal End Panel Kit	80	350.00	385.00
XLG-7E	7-High Legal End Panel Kit	90	359.00	395.00
XLG-8E	8-High Legal End Panel Kit	99	393.00	432.00

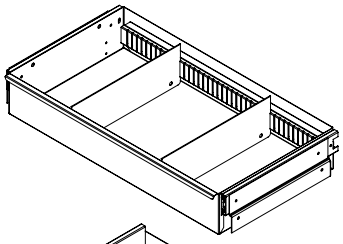
Add-On End Panel Kits convert adder unit to a starter unit. All Kits include two closed ends.
Allow additional space for expansion – refer to page152 and 153 for space requirements.



3-3/4" MULTIMEDIA DRAWERS

ITEM #	DESCRIPTION	EST. LBS.	ZONE I	ZONE II
XLT-MM3	Letter Multimedia Drawer (Includes 3 Dividers)	14	187.00	206.00
XLG-MM3	Legal Multimedia Drawer (Includes 4 Dividers)	20	192.00	211.00
XL-MD3	3" Media Divider (each)	1	21.00	23.00

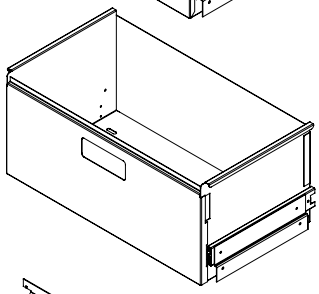
3-3/4" high profile drawer are slotted on 1/2" centers (front & rear) to accept Drawer Dividers. Ideal for a variety of storage applications including cards, checks, VHS, CD, DVD, and Microfilm. Additional dividers are available.
Includes pullout suspension and mounting hardware.
Letter drawer: 12-1/2" Deep x 22-1/4" Wide x 3-3/4" High – Legal drawer: 15-1/2" Deep x 28-1/2" Wide x 3-3/4" High



FILE/STORAGE DRAWERS

ITEM #	DESCRIPTION	EST. LBS.	ZONE I	ZONE II
XLT-FS1	Letter File/Storage Drawer - Non Locking	16	163.00	206.00
XLT-FS1L	Letter File/Storage Drawer - Locking	18	287.00	316.00
XLG-FS1	Legal File/Storage Drawer - Non Locking	24	172.00	189.00
XLG-FS1K	Legal File/Storage Drawer - Locking	26	298.00	328.00

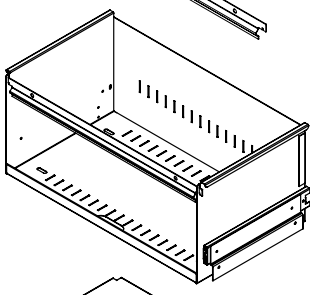
The File/Storage Drawer provides storage for a multitude of items and is ideal for letter and legal depth hanging folders. Available locking or non-locking.
Includes pullout suspension and mounting hardware.
Letter drawer: 12-1/2" Deep x 22-1/4" Wide x 10" High – Legal drawer: 15-1/2" Deep x 28-1/2" Wide x 10" High



HANGING FOLDER DRAWER

ITEM #	DESCRIPTION	EST. LBS.	ZONE I	ZONE II
XLT-HF2	Letter Depth Hanging Folder Drawer - Non Locking	15	161.00	177.00
XHFLT2	Letter Front Hanging Folder Rail (each)	2	32.00	35.00
XLG-HF2	Legal Depth Hanging Folder Drawer - Non Locking	22	166.00	183.00
XHFLG2	Legal Front Hanging Folder Rail (each)	3	39.00	43.00

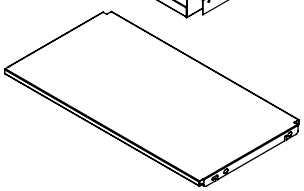
The Hanging Folder Drawer is ideal for multimedia applications. Suitable for top tab folders, hanging files, or remove front rail for side tab use. Deep drawer allows for a variety of storage uses.
All drawers include one removable front hanging folder rail.
Adjustable Dividers Sold separately. Specify FDL5 Dividers found on page 156.
Letter drawer: 12-1/2" Deep x 22-1/4" Wide x 10" High Legal drawer: 15-1/2" Deep x 28-1/2" Wide x 10" High



FLAT SHELF (PASS THROUGH)

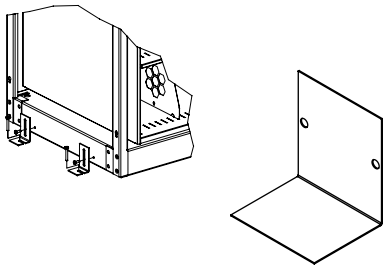
ITEM #	DESCRIPTION	EST. LBS.	ZONE I	ZONE II
XFSLT	Letter Depth Flat Shelf (each)	6	42.00	46.00
XFSLG	Legal Depth Flat Shelf (each)	8	60.00	66.00

Accommodates material storage through both sides of cabinet.
All shelves are unslotted (two shelves per opening required).
Flat shelves must be located at a minimum of 14" above the Rotary Bottom to clear Center Panel.



SEISMIC BRACKET

ITEM #	DESCRIPTION	EST. LBS.	ZONE I	ZONE II
XFA	Seismic Bracket (Pair)	3	28.00	31.00



MAGNETIC DIVIDERS

ITEM #	DESCRIPTION	EST. LBS.	ZONE I	ZONE II
MAG4	1 Mini-Magnetic Divider (4" high x 4" wide)	1	11.00	12.00
MAG7	1 Mini-Magnetic Divider (4" high x 7" wide)	2	16.00	18.00

WALL CLOSURE PANEL - SINGLE DEPTH

ITEM #	DESCRIPTION	EST. LBS.	ZONE I	ZONE II

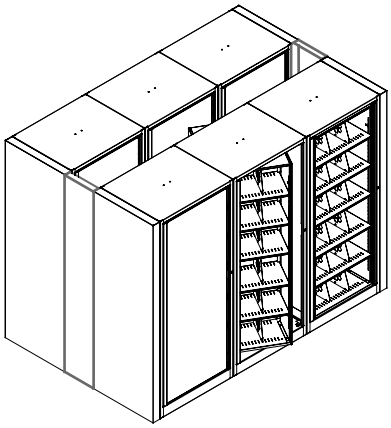
XLG-7CD	7-High Legal Closure Panel	52	146.00	161.00
XLG-8CD	8-High Legal Closure Panel	58	151.00	166.00



Full-height closure panel for back-to-back Ez2® Rotary Action File applications.
Refer to page 191 for space planning information.

Rotary Action File™ General Information & Specifications

GENERAL INFORMATION

Product Description: Each rotary tier has an inner and an outer filing capacity. The outer filing capacity should be used when the media being stored has a tapered thickness, such as ring binders and file folders with stapled sheets. The inner filing capacity must be used when the media has a parallel thickness, such as cards and file folders without stapled sheets.

To determine the number of tiers required divide the total required LFI by the proper filing capacity from the chart to the right. It is very important that you properly determine which filing capacity (inner or outer) is used when calculating the number of tiers needed.

Rotary files have permanent dividers and are slotted to accept movable dividers, the chart to the right indicates the number of each. When adding movable dividers to a tier please remember that 1/32 of a filing inch is lost for each divider added.
Ordering: Media must be specified with all orders. Specify distance from floor to first tier. Specify flange direction up or down.

SPECIFICATIONS

Tiers: Shafts between 36" and 54" diameter tiers are 2" in diameter. All tiers are slotted to accept moveable dividers. One moveable divider is provided with each tier.
Shipping: All shipping weights are approximate. All prices shown are knocked-down, F.O.B., York, PA. All orders are shipped common carrier, prepaid and add, unless otherwise specified.
Finish: All steel parts are thoroughly cleaned using a three-stage iron phosphate washer and then coated with an Epoxy-Hybrid powder coat finish using a state-of-the-art electrostatic paint system. Powder coating provides a superior, attractive, uniform finish that is more durable, scratch and corrosion resistant, and environmentally friendly than liquid paint. All tiers and dividers are available in all standard colors, bases are painted black.

FOR ADDITIONAL INFORMATION ON ORDERING, TERMS AND CONDITIONS, PRICING AND SHIPPING, PLEASE REFER TO PAGE i.

GENERAL INFORMATION

Product Description: The Datum FileCart™ is designed to provide transportation and storage of file folders, mail, and other office supplies. Easy access of file folders increases office organization and efficiency.

SPECIFICATIONS

Packaging & Assembly: Basic FileCart™ and File Transport Cart components ship knocked-down for easy assembly. X-Ray cart ships fully assembled. Deluxe Transport Cart requires some assembly (handles).

Basic FileCart™: All models are manufactured from 18 gauge steel with 14 gauge steel reinforcement and durable powder coat paint finish. All movable dividers are manufactured from 20 gauge steel with durable powder coat paint finish. Casters are 3" diameter hard rubber swivel casters (two free/two locking).

Transport FileCart™: File Transfer Cart models are manufactured from 20 gauge steel with 14 gauge steel reinforcement and durable powder coat paint finish. Casters are 5" diameter hard rubber casters (two swivel/two non-swivel). X-Ray Cart models are manufactured from 16 gauge steel (base, channel, uprights) with 18 gauge shelves and dividers and durable powder coat paint finish. Casters are 4" diameter hard rubber casters (two locking swivel/two non-locking fixed). Deluxe Transport Carts are manufactured from 16 gauge steel (skin, base, sides of shelves) reinforced with 14 gauge steel inside uprights and 20 gauge steel doors and shelf backs and durable powder coat paint finish. Casters are 5" diameter hard rubber casters (two locking swivel/two non-locking fixed).

Finish: All steel parts are thoroughly cleaned using a three-stage iron phosphate washer and then coated with an Epoxy-Hybrid powder coat finish using a state-of-the-art electrostatic paint system. Powder coating provides a superior, attractive, uniform finish that is more durable, scratch and corrosion resistant, and environmentally friendly than liquid paint.

GENERAL INFORMATION

Product Description: WallWrite® is a convenient wall mounted workstation which can be used virtually anywhere floor space is at a premium or wherever the need of a writing surface is required. WallWrite® offers a large 19" by 13" deep work surface (Standard WallWrite®, X-Ray WallWrite® desktop measures 19" x 16") which folds up to conserve space when not in use. Standard features include heavy-duty steel construction, durable long lasting powder coat finish, magnetic door closures, handy pen holder (WallWrite® DropBox models and X-Ray WallWrite® does not include pen holder), an oversized compartment for document storage, and meets ADA compliance (less than 4" in depth when closed). Optional features include: locking doors, chart holder, erasable white board door, laminated front, self-closing door, and custom colors and sizes.

Applications and Uses: Unlimited applications. Ideal for health care facilities, pharmacy and storage room, nursing stations, and patient and examining room. Other uses include industrial, warehousing, inventory control, and shipping and receiving.

SPECIFICATIONS:

Material and Workmanship: All WallWrite® fold-up desks are manufactured of high quality, cold rolled steel, free of scale or rust, powder coated to ensure a long lasting and durable finish. All fold-up desks are constructed of a 20 gauge steel shell and an 18 gauge steel door connected together with two heavy-duty stainless steel connectors. All come standard with a minimum of two recessed magnetic door closures, ensuring a positive door closure when not in use. Doors are rated for a maximum of 50 pounds of evenly distributed weight load. DropBox slots for the X-Ray and Standard model are 3/4"D x 18-3/4"W.

Packaging & Assembly: All WallWrite fold-up desks come fully assembled, and are packed one per box. All mounting hardware is included.

Finish: All steel parts are thoroughly cleaned using a three-stage iron phosphate washer and then coated with an Epoxy-Hybrid powder coat finish using a state-of-the-art electrostatic paint system. Powder coating provides a superior, attractive, uniform finish that is more durable, scratch and corrosion resistant, and environmentally friendly than liquid paint.

POWDER COATED TOUGH™
