Experience Providing Government Solutions

Providing solutions since 1907, Equipto has the experience and capability to design integrated systems specifically designed for each government application. Whether it be a military base, transportation facility or other federal government organization, Equipto products offer durable, secure storage that enables each space to be utilized to its fullest potential.

A "Small Business Concern" With Large Capabilities

Equipto delivers integrated solutions that enhance operational readiness, accountability of assets and mobility. Equipto offers local and factory support and thousands of products available on the *GSA Advantage!* Program. Equipto accepts Delivery Orders as well as Government IMPAC Credit Cards.

GSA Contract: GS-27F-5057C

- Shelving and Racks
- Modular Drawer Cabinets
- Mezzanines
- Workcenters
- Cabinets and Carts

Schedule Number: 71 III

SIN: 71-310

Warranty Provision: Limited Lifetime Warranty

Description: Special Use Furniture (Industrial and Institutional Furniture: Workbenches, Worktables, Warehouse Storage, and High Density Storage Cabinets, Modular Cabinets)

GSA Contract: GS-28F-7069G

- Mobile Aisle Systems
- Mobile Aisle Accessories
- Installation Services

Schedule Number: 71 I

SIN: 711-7 and 711-95

Warranty Provision: 5 Year Warranty

Description: High Density, Movable Filing Systems and Accessories (711-7) and Installation Services (711-95)

Equipto supports its government customers with factory trained specialists that understand the rules and regulations that govern our relationship. Call 1-800-323-0801 for questions on ordering and design layout.

V-GRIP SHELVING

V-Grip Shelving is unmatched in structural integrity and performance. V-Grip Shelving provides the government market with the ability to customize storage solutions to virtually any requirement with the broadest selection of accessories and components available.

Modular drawers positioned between the knees and shoulders ergonomically store small parts and tools while providing bulk storage above and below.

Advantages and Benefits

- Versatility of using steel, wood or wire shelves
- 48 standard drawer sizes in 200 lb. and 400 lb. capacity
- Bulk rack options with spans up to 8'
- Reflective white side and back panels enhance visibility and lighting
- Capability to be designed in double and triple deck configurations

The Orange County Fire Department in Orange County, CA utilizes V-Grip Bulk Rack to efficiently store equipment and components for their information services repair department.

Government Applications

- Bulk and small part storage for bases, hangers and maintenance departments
- Government storage facilities and parts departments
- Supply support storage to brigade elements with unit maintenance capabilities
- Storage for Class IX repair parts (common, missile, etc.)
- Storage at naval refueling and renovation facilities for temporary off-loading of a ship's documentation, parts, and components

FLEET TECHNICAL SUPPORT CENTER
ATLANTIC - ST. JULIEN'S CREEK ANNEX
Portsmouth, VA

"Equipto's service was superb. There were never any delays and everything was delivered on time and as promised. The double-deck shelving system allows me to maximize my cubic footage of storage and get the most out of my facility."

John Wheely,
Branch Head-Integrated Logistic Overhaul

MODULAR DRAWER CABINETS

Organize small avionic parts, maintenance tools and equipment, and department supplies with Modular Drawer Cabinets. Each Equipto Modular Drawer Cabinet is engineered and manufactured with exacting precision for years of rugged use. Mobility kits and a wide selection of worksurfaces create flexible, transportable custom work areas.

At Elmendorf AFB in Anchorage, AK, Modular Drawer Cabinets with upper shelving cabinets organize electronic parts and avionic components for the F-15 Boeing training facility.

Government Applications

- Mission-critical parts and supply storage
- Deployment and field-ready parts, supplies, and tools
- Radio, telecom terminal device, and small-arms repair
- Storage for ISO containers, ISU containers, trucks and trailers
- Shipboard stowage with narrow space constraints
- Storage for ASL & PLL repair and replacement parts

Equipto mobility kits allow Modular Drawer Cabinets to be easily transported to where they are needed most. Whether it be operating "in garrison," when deployed to an active duty location/temporary duty station or moving to a different location within a facility.

Modular Drawer Cabinets offer self-contained storage for small to medium parts and can be easily repositioned without unloading for facility reconfiguration or deployment.

Advantages and Benefits

- 71 standard drawer sizes and 30 standard housing sizes
- 200 lb. and 400 lb. capacity drawers
- Smooth, quiet drawer operation with 100% drawer extension
- High-quality, one-piece welded frames
- Optional Lock-in/Lock-out drawer locking mechanism
- Wide selection of accessories including flush-mount doors, roll-out shelves, worksurfaces and mobility kits

At McChord AFB, Modular Drawer Cabinets are configured with roll-out shelves, flush-mount locking doors, and solid hardwood tops to provide secure storage for a tools issue counter at the sheet metal shop for the 62nd Maintenance Squadron.

MOBILE AISLE SYSTEMS

Equipto's Mobile Aisle System combines the benefits of high-density storage with the flexibility of V-Grip Shelving, Modular Drawers and Bulk Rack. By reducing the number of access aisles you can save as much as 50% of your floor space or double your storage capacity in the same space.

A Mobile Aisle System at Camp LeJeune stores parts, supplies and air tanks in a condensed efficient system.

Advantages and Benefits

- Double storage capacity in the same floor space
- Integrates easily with V-Grip Shelving maximizing the flexibility to store small and bulk items together
- Carriages are rated to carry a minimum of 1,000 lbs. per linear foot
- Mechanical-assist controls allow operator to move thousands of lbs. with 1lb. of effort
- All-rail drive ensures uniform carriage movement
- Modular design facilitates easy assembly and reconfiguration

Economical, open-style drive column's give clear visibility into the items being stored on Mt. Home AFB's Mobile Aisle System.

Government Applications

- MOBAG, deployment gear and equipment storage
- Vehicle and flight maintenance departments storing spare parts, tools and equipment
- Supplies and documentation/record storage
- Government storage facilities with tight footprints and space constraints
- High-security storage applications preventing theft and loss

KODIAK ISLAND USCG AIR STATION KODIAK ISLAND, AK

"The Mobile Aisle System is convenient and organized and allows us to fit all the aircraft maintenance parts we need. The adjustability of the system gives us the freedom to reconfigure in the future and make changes as we see fit".

John Miller,
Contracting Officer's Representative

VIRGINIA AIR NATIONAL GUARD SANDSTON, VA

Equipto Mezzanines can double or triple existing floor space and eliminate the need to build new facilities or expand existing ones. These rugged elevated platforms, walkways and stairways add valuable space where you need it, at a fraction of the cost of acquiring new buildings. With their modular design, Equipto Mezzanines are easily installed and can even be reconfigured on your premises as your space requirements change.

Advantages and Benefits

- Double or triple available floor space
- Modular design facilitates quick assembly
- Less expensive than new construction
- Prefabricated for immediate use
- Expert engineering and design support

The DC National Guard utilizes a Mezzanine over a Mobile Aisle System to double its floor space and provide ample storage for MOBAG's and deployment equipment.

Government Applications

- Facilities with ceiling heights of 14' or more to maximize vertical storage space
- Bulk storage for supplies and large parts and tools
- Military vehicle and flight service areas for specialized weapons and communications equipment
- Staging areas for multi-level shelving systems
- Parts and maintenance departments

"We now have the necessary bulk and overhead storage space that we need thanks to the integrated mezzanine and shelving system, allowing us to easily store and manage all of our mobility equipment and WRSK kits."

MSgt. Chris Hodge

Mezzanine modules and stairways are configured as service bays for Hummer vehicles at Ft. Bragg, North Carolina.

WORKCENTERS

Equipto workcenters provide years of useful, rugged and efficient space utilization. Select from wall-mount or free-standing units, with or without drawers, and the largest variety of accessories to take advantage of your work space. Equipto's extensive line of workcenters organize work areas and productivity.

Modular Drawer Cabinet workcenters provide work and storage space in the communications department at the Orange County Fire Department in CA.

Mobility Kits give these Modular Drawer Cabinet workcenters the ability to be moved where they are needed within the facility.

Advantages and Benefits

- Combine storage of parts and tools with a useable worksurface
- Customize your workcenter to your exact needs with production boosters, drawers, mobility kits, and other accessories
- Mobility kits allow benches to be easily moved so parts and tools are always accessible
- Common leg design for continuous row applications
- Knockouts in legs for convenient electrical hookup
- Available top choices include:
 - Painted steel
 - Stainless steel
 - Hardwood

"Iron-I" workcenters with stainless steel tops provide a clean, attractive work space for an avionics repair department at McChord AFB.

Equiptoflex workcenters organize office space at a parts issue area at McChord AFB.

Government Applications

- Repair workspace for avionics and communications departments
- Fleet maintenance service areas
- Office, maintenance, assembly, mail room, and electronics areas
- Work areas with changing space and layout requirements

Delivering Integrated Storage And Mobility Solutions For Government Requirements.
