

TWO-DRAWER 44"

# FireKing Lateral Files

Maximum filing capacity: in a low-profile lateral design.

**N**ow there's a great way to fit big filing jobs into a sleek, low-profile look: while enjoying a lifetime of peace of mind. Our FireKing Lateral Files incorporate the best of FireKing file features into a space-saving design – and, like all our files, they carry the Underwriters' Laboratories Class 350 one-hour "Record Protection Equipment Classified as to Fire and Impact Resistance" label.

Use your FireKing Lateral File to organize and protect: Tax records

- Legal documents
- Deeds, contracts, and financial instruments
- Accounts Payable and Receivable
- OSHA records
- Personal

items (manuscripts, photographs, etc.) FireKing Lateral Files are equipped with UL-listed high-security keylocks – certified to resist picking and drilling – and a wide variety of locking options is available to ensure confidentiality.

FireKing Lateral Files can be ordered in 2-, 3-, and 4-drawer sizes, and 31", 38" and 44" widths. They're fully equipped for both letter and legal hanging files – no additional frames are required. What's more, they offer a complete range of accessory and interior options, and are available in nine standard colors (or any custom color you specify) to match your office decor.

**UL-rated to protect your vital documents.** FireKing Lateral Files are Underwriters'

Laboratories-listed to protect paper records through the following tests:

- A one-hour fire test in external temperatures of over 1700°F
- A 1550°F-fire-plus-30-foot impact test
- A 2000°F explosion hazard test

Because of its unique steel lattice reinforcement, insulation between drawers, and extra-thick steel panels, a FireKing Lateral File is UL-rated to survive a fall of 30 feet – and still keep its contents safe in a fire. Combined with the fire and explosion-hazard UL ratings, this test proves that FireKing Lateral Files are built to survive under the worst conditions. What's more, their oven-dried, asbestos-free insulation maintains this protection for a lifetime.

**We guarantee it.**

Like all FireKing files, these carry FireKing's exclusive Lifetime Warranty on all parts. And our Free Replacement Guarantee: if your FireKing file ever has to protect your records in a fire and any damage occurs to its fire-protection abilities, we'll give you a new one free of charge.

# Lateral File Specifications

FIREKING 44" LATERAL FILING ARRANGEMENTS

## Fire and Impact Rating

The Underwriters' Laboratories "Record Protection Equipment" classification includes a one-hour fire test of 1700°F, a 2000°F explosion hazard test, and a 30-foot impact test.

## Insulation

The FireKing Lateral File's casting is of specially formulated, asbestos-free gypsum-based insulation, oven-dried to reduce free moisture to less than 1/2%. Insulation is reinforced with 1" x 2" 14-gauge galvanized welded-steel wire; and insulation between all drawers makes each drawer a separate insulated container.

## Field-Replaceable Steel Panels

All exterior steel panels are replaceable in the field in the event of minor damage.

## Finish

An environmentally friendly, electrostatically applied powder coating gives the FireKing Lateral File a scratch-, scuff-, and stain-resistant finish. Plus, a five-stage prefinishing treatment provides unmatched adhesion and rust resistance.

## Drawer Suspensions

Accuride® suspensions are securely mounted with screws to metal posts in the file body. (All drawer suspensions are guaranteed for life.)

## Drawer Bodies

Each drawer body is built with high sides for use with hanging folders – no additional frames are required. Divider rails are provided to allow for a variety of filing configurations.

## Drawer Heads

Drawer heads are formed of welded steel, and filled with our specially formulated gypsum-based insulation. Each drawer head is designed for a tight interlock with the cabinet frame – making all drawers extra-resistant to heat transfer.

## High-Security Keylocks

The FireKing Lateral File's Medeco™ drawer keylocks are UL-rated to resist picking and drilling. Because keys cannot be duplicated – except through FireKing – access is limited to authorized keyholders only.

## Drawer Bypass

Works for all file drawers. In its "up" position, the drawer catch allows a drawer to stay unlocked while other drawers remain locked.

## Drawer Pulls

Made of bright chrome-plated zinc, each drawer pull contains an integral index-card holder.

## Colors

FireKing Lateral Files are available in the nine standard colors preferred by today's office designers and decorators:

Parchment	Champagne
Tan	Sand
Taupe	Platinum
Brown	Pewter
Black	

They're also available in any custom colors you specify.

## Lifetime Warranty

All FireKing files carry a lifetime warranty on all parts, including insulation and drawer suspensions.

## Free Replacement Guarantee

If your FireKing Lateral File is ever required to protect your documents in a fire, and any of its fire-protective properties are damaged, FireKing will replace it free.
