To Whom it may concern:

As Manager of the Diagnostic Imaging Department, I consulted with Salt City Records when we needed to move an entire film library from the basement of one of our facilities to a newly created file room. Dustin and his team helped design and then install a system that utilized all the available space with units that are easy to operate, look good and can be converted to other file sizes in the future. That was important to us since we are a digital department now and our film library gets smaller every year. When we no longer have film, the system can be used somewhere else in the hospital for smaller files and not be disposed of because it is customized for large x-ray films. Salt City Records and their staff have many solutions for record storage and I will not hesitate to call them with other needs in the future.

Jacob Rice, R.T. (ARRT)
Manager, Diagnostic Imaging
Magic Valley Regional Medical Center
