Salt City Records
255 East 400 South, Suite 150
Salt Lake City, UT 84111

Dear Jim:

Your track and ramp system works perfectly. We did not want to coordinate the carpet as we would have with a traditional raised floor. We also wanted a system which could be moved without requiring ripping up our carpeting. Installation was on time and according to the terms of our contract, and the system works perfectly. We are prohibited from endorsing contractors, but customers may contact us regarding the facts of your performance under our contract.

Sincerely,

SherRon Smith
Senior Legal Secretary
